ImmTrac, the Texas immunization registry, is a free service of the Texas Department of State Health Services. The immunization registry is a secure and confidential service that consolidates and stores your immunization records. State law permits the inclusion of immunization records for First Responders and their immediate family members (over 18 years of age) in the Registry. With your consent, your immunization information will be included in ImmTrac and health care providers can access your immunization history. A "First Responder" is defined as a public safety employee or volunteer whose duties include responding rapidly to an emergency. An "immediate family member" is defined as a parent, spouse, child, or sibling who resides in the same household as the First Responder. For a family member less than 18 years of age, a parent, legal guardian, or managing conservator may grant consent for participation as an "ImmTrac child" by completing the Immunization Registry (ImmTrac) Consent Form (#C-7).

The Texas Department of State Health Services (DSHS) encourages your voluntary participation in the Texas immunization registry.
