**Phase II (Small) MS4 Annual Report Form
TPDES General Permit Number TXR040000**

A. General Information

1. Permit No. TXR040035 Annual Report Year: Year 4 (August 13, 2010 – August 12, 2011)

Name of MS4 / Permittee: Collin County MS4

Contact Name: Ruben Delgado, P.E.

Telephone Number: 972-548-3728

Mailing Address: 825 North McDonald Street, McKinney, Texas 75069

E-mail Address: rdelgado@collincountytx.gov

2. Is the named permittee relying on another entity/ies to satisfy some of its permit obligations? _____ Yes ___X___ No

If Yes, provide the name(s) of other entity/ies and an explanation of their responsibilities (add more spaces or pages if needed):

Name and Explanation: NA

3. Is the named permittee sharing a SWMP with other entities? _____ Yes ___X___ No

a. If the answer to Number 3 is “Yes,” list all associated permit numbers and permittee names (add additional spaces or pages if needed):

Permit Number: _____ Permittee: _____

b. If the answer to Number 3 is “Yes,” is this a system-wide annual report including information for all permittees?

_____ Yes _____ No

Explanation, if any _____

4. Has a copy of this annual report been submitted to the TCEQ Regional Office? Yes No

B. SWMP Modifications and Additional Information

Include a brief explanation if you check “Yes” to any of the following statements.

1. a. Changes have been made or are proposed to the SWMP since the NOI or the last annual report, including changes in response to TCEQ’s review. Yes No

Changes were required for two BMPs. Illicit Discharge BMP ID-6 and Construction BMP C-1 were modified. ID-6 could not be implemented due to a lack of local funding for Household Hazardous Waste (HHW) Collection and the discontinuation of TCEQ Agricultural Waste Collection Events which the County had proposed to promote for HHW disposal. An equivalent BMP has been substituted for ID-6. The County will now promote the recycling of used motor oil as an Illicit Discharge BMP. Implementation activities and measurable goals have been established for Year 5. For BMP C-1, the County proposes to shift adoption of revised subdivision regulations to Year 5. Proposed changes are discussed in Table 2 and on BMP status sheets (see Section 5.0 of Annual Report).

- b. If the answer to Number 1.a. is “Yes”, has the TCEQ already approved the original SWMP? Yes No

TCEQ approved the SWMP on June 8, 2009.

- c. If the answer to Number 1.a. is “Yes”, indicate whether an NOC (or letter) has been submitted to document the changes to the approved SWMP as required by the general permit. (Note that if an NOC is required, it must be submitted to the address shown on the NOC. Do not attach the original NOC form to this report.) Yes No

An NOC was completed and submitted to TCEQ. A copy of the completed NOC is included in Appendix 1 of this Annual Report. The NOC includes revised SWMP pages. Justification of changes and equivalent BMPs are discussed on the BMP status sheets included in Section 5.0 of this annual report.

2. The MS4 has annexed lands since obtaining permit coverage. Yes No

3. A receiving water body is newly listed as impaired or a TMDL has been established. If yes, please explain. Yes No

Muddy Creek (Segment 0820C) was listed in 2002 for bacteria impairment. According to the DRAFT 2010 Texas Water Bodies and Parameters Removed from the 303(d) List (dated February 5, 2010), Muddy Creek (Segment 0820C) is proposed to be delisted.

No additional listings for receiving waterbodies are noted in the Draft 2010 303(d) list (dated February 5, 2010). No TMDLs have been developed for receiving waterbodies to which Collin County MS4 discharges.

4. The MS4 has conducted analytical monitoring of storm water quality. _____ Yes No

Explain below or attach a summary to submit along with any monitoring data used to evaluate the success of the SWMP at reducing pollutants to the maximum extent practicable. Be sure to include a discussion of results.

C. Narrative Provisions

1. Provide information on the status of complying with permit conditions:

	Yes	No	Explain
Permittee is currently in compliance with the SWMP as submitted to and approved by the TCEQ.		X	Changes to BMPs are proposed and an NOC has been submitted. Currently awaiting approval by TCEQ.
Permittee is currently in compliance with recordkeeping and reporting requirements.	X		
Permittee meets the eligibility requirements of the permit (e.g., TMDL requirements, Edwards Aquifer limitations, compliance history, etc.)	X		No TMDLs, compliance history rating of 7.39 (average)

2. Provide a general assessment of the appropriateness of the selected BMPs:

Has the permittee determined that any of the selected BMPs are not appropriate for reducing the discharge of pollutants in storm water? _____ Yes No

Provide explanation:

3. Describe progress towards reducing the discharge of pollutants to the maximum extent practicable (MEP). Summarize any information used (such as monitoring data) to evaluate reductions in the discharge of pollutants. Use a narrative description or table as appropriate:

MCM	BMP	Parameter	Quantity	Units	Does BMP Demonstrate a Direct Reduction in Pollutants? (Yes / No / Explain)

Or, provide explanation below:

Collin County is striving to reduce the discharge of pollutants to the maximum extent practicable through implementation of BMPs contained in our SWMP. No water quality information is available at this time to demonstrate a direct reduction in pollutants.

4. Provide a general evaluation of the program’s progress, including any obstacles or challenges encountered in implementing BMPs, meeting the program’s schedule, etc.:

Of the 40 BMPs included in our SWMP, 38 BMPs are in the process of being implemented and 2 BMPs are complete in their implementation schedule. Of the 38 BMPs in the process of being implemented, 2 BMPs require modification and an NOC has been submitted to TCEQ.

Challenges: Coordination with other Phase I and Phase II communities in Collin County is required for ID-1. Engaging GIS professionals from the various communities to develop a consistent set of attributes for the Storm Drain System Map has been challenging. Each community is in different stages of implementing GIS. The Phase I cities have much more experience and we are proposing to model our GIS mapping effort after Plano’s.

Securing funding for Household Hazardous Waste (HHW) Collection (BMP ID-6) has been challenging. A grant application through the North Central Texas Council of Governments was not successful. The County then decided to promote TCEQ’s Agricultural Waste Collection events in Collin and neighboring counties as a means to promote the proper disposal of HHW. TCEQ has discontinued this program, therefore, the County and the Storm Water Stakeholder Committee has decided to substitute an

equivalent BMP in this category. The County will instead promote the recycling of used motor oil through public education on its storm water web page. BMP ID-6 has been modified to reflect the replacement BMP and an NOC has been submitted to TCEQ.

5. Provide the number of construction activities (other than those where the permittee was the operator) that occurred within the regulated area as indicated via notices of intent or site notices:

The County only received 1 construction site notice (CSN) during Year 4 for a commercial building permit. No NOI/NOC/NOTs were received.

6. Does the permittee utilize the 7th MCM related to construction? _____ Yes No

If Yes, then provide the following information for this permit year:

a. The number of municipal construction activities authorized under this general permit: _____

b. The total number of acres disturbed for municipal construction projects: _____

Though the 7th MCM is optional, this must be requested on the NOI or on a NOC and approved by the TCEQ.

7. Requirements for Specific Minimum Controls Measures (MCMs):

- a. For MCM 1 - Public Education and Outreach, provide documentation of activities conducted and materials used to fulfill the requirements of this MCM.

For MCM 1 - Public Education and Outreach, documentation of activities conducted and materials used are provided on the individual BMP Status pages. Documentation includes attendance sheets, meeting summaries, web page screen shots, copies of brochures, and other educational media. Copies are included on the enclosed CD.

- b. Also for MCM 1, provide documentation of the amount of resources used to address each group (e.g., visitors, businesses, etc.).

For MCM 1, documentation of amount of resources that were used to address each sector of the community is documented in the individual BMP status pages.

Residents: BMPs PE-1, PE-2, PE-3, PE-4

Visitors: BMPs PE-2, PE-3

Public Service Employees: PE-2, PE-3

Businesses: PE-2, PE-3

Commercial and Industrial Facilities: PE-2, PE-3

Construction Site Personnel: PE-2, PE-3

- c. For MCM 3 – Illicit Discharge Detection and Elimination (IDDE), indicate whether you have developed a list of allowable non-storm water discharges, other than those already listed in the general permit. If you have developed a list and have made any changes to the local controls, conditions and/or programs being established for discharges, include this information below. If you do not have any changes for this permit year, indicate that this item is not applicable.

For MCM 3 – Illicit Discharge Detection and Elimination (IDDE), Collin County has NOT developed a separate list of allowable non-storm water discharges and has adopted the list contained in the general permit as stated in Section 4.3.2 (page 9) of our SWMP.

8. Describe any proposed changes to the SWMP in the coming reporting year.

Changes are proposed for 2 BMPs ID-6 and C-1. Descriptions of the proposed changes are provided on the appropriate BMP status pages (Section 5.0) of the Annual Report and on the Attachment 3 to the NOC, a copy of which is located in Appendix 1.

9. Describe any activities planned for the next permit year / reporting cycle.

Descriptions of the activities planned for the next permit year are documented on the BMP Implementation Status pages (see Section 5.0 of the Annual Report)

D. Storm Water Management Program Status.

		Storm Water Management Program – Annual Report August 13, 2010 – August 12, 2011		TABLE 1 – YEAR 4 BMP STATUS		
		The table below lists the implementation activities and measurable goals developed for each BMP for Year 4. See individual BMP sheets for details and documentation.				
MCM(s)- BMP ID	BMP	Milestone of Permit Year		Status		
		Implementation Activity	Measurable Goal	New (N) or Revised (R)	Start Date	Status/ Completi on Date
PE-1	Classroom Storm Water Education	Develop educational materials Hold 1 Educational class per ISD with NPS Model	Attendance List		8/2008	In progress
PE-2	Storm Water Web Site	Develop a web page to promote Stream Clean-Up projects Maintain web-site links	Screen shot of Stream Clean-Up page		8/2008	In progress
PE-3	Brochures	Select topic for Year 5 brochure Develop Year 4 brochure Distribute brochures to kiosks	Year 5 topic Purchase order for brochures		2/2008	In progress
PE-4	Coordination with Texas AgriLIFE Extension	Develop list of storm water educational presentations and activities Attend 2 Leadership Advisory Board Meetings	List of Storm Water Presentations # of attendees 2 attendance sheets		2/2008	In progress
PE-5	NCTCOG Storm Water Public Education Task Force	Attend and stay informed of 2 Task Force meetings/year Tailor RDIs and implement locally to educate public	2 Sign-in sheets List of RDI activities		2/2008	In progress
PI-1	Collin County Adventure Camp	Offer lesson plans to participating ISDs	List of classes Dates and # of students		8/2008	In progress
PI-2	Storm Water Stakeholders Committee	Hold 1 meeting to review Year 3 Annual Report	A Meeting minutes Attendance sheet		2/2008	In progress
PI-3	Stream Clean-Up Projects	Advertise program to organizations Note potential locations during visual monitoring and bridge maintenance Schedule and hold one cleanup event	Promo flyer Host 1 cleanup event		8/2009	In progress
PI-4	NCTCOG Public Works Council (substituted for NCTCOG County Storm Water Managers Roundtable)	Attend and stay informed of Public Works Council meetings	List of meetings attended List of attendees		8/2008	In progress
ID-1	Storm Drain System Mapping	Locate and map outfalls in Collin County UA areas south of New Hope Coordination meeting City GIS coordinators in Collin County Sharing of available data	Outfall map-New Hope UA area Meeting minutes Countywide map		2/2008	In progress
ID-2	Visual Monitoring of Outfalls	Walk accessible reaches/perform visual monitoring for UA south of New Hope Maintain tracking system/verify GIS map	Visual monitoring map for UA south of New Hope		8/2009	In progress
ID-3	Illicit Discharge Investigations	Investigate suspected illicit discharges (as necessary) Seek voluntary compliance or refer to adjacent MS4 or TCEQ	List of investigations List of compliance/referral		8/2009	In progress
ID-4	NCTCOG Cooperative Wet Weather Monitoring	Obtain and review results of wet weather monitoring activities in Collin County Inform public of results by posting link to NCTCOG annual report on the County's website	NCTCOG Annual Report		2/2008	In progress
ID-5	Reduce Illegal Dumping	Continue existing program to combat illegal dumping	Map of illegal dump sites List of investigations		8/2007	In progress
ID-6	Promote Used Oil Recycling (formerly HHW Collection)	Promote TCEQ collection events for HHW Submit NOC to substitute BMP to promote used oil collection sites in Collin County	Date of events Web page screen shot	R	8/2008	In progress
ID-7	Recycling Centers	Track quantity of material recycled by location Update web page (as needed)	Quantity of material by location Screen shot – web page		2/2008	In progress
ID-8	Hazardous Material Spill Response	Continue HAZMAT responsibilities in the County	List of HAZMAT calls and responses		8/2007	In progress
ID-9	Reduce Failing Septic Systems	Continue OSSF inspection program	List of OSSF inspections		8/2007	In progress
C-1	Review Erosion Control Section of Subdivision Regs	Revise and update draft subdivision regulations	Revised regulations	R	2/2008	In progress
C-2	Erosion Control Plan Review Procedures	Verify and track SWPPPs submitted to the County Review EC plans outside of ETJ (if authorized)	List of SWPPP/NOI/CSN # of plans reviewed		2/2008	In progress
C-3	Construction Inspection	Adopt procedures and perform inspections	Adopted procedures		8/2009	In progress
C-4	Information Submitted by the Public	Promote hotline Receive and log public comments	Web page screen capture List of public comments & investigations		8/2008	In progress
C-5	NCTCOG Inspector Certification Training	Send new hire inspectors to training	Dates and attendees for training classes (new hires)		8/2008	In progress
C-6	Design Guidance for Construction	None	none		2/2008	Completed 8/2008
C-7	GIS Map of Active Construction Sites	Update GIS map of active construction sites based on NOIs submitted to the County	Updated GIS map		2/2008	In progress
PC-1	Long Term Operation and Maintenance of BMPs	Continue to maintain BMPs according to O&M plan Maintain and update GIS map (as needed)	Maintenance Work Orders Updated BMP map		8/2009	In progress
GH-1	NCTCOG Storm Water Pollution Prevention Training	Develop County specific training and hold 1 training per department	Training dates/attendees		8/2007	In progress
GH-2	ROW Maintenance	Continue inspection, cleaning and maintenance Update maintenance/cleaning log	Maintenance work orders Disposal log		8/2007	In progress
GH-3	Spill Response and Prevention	Continue HAZMAT responsibilities in the County	List of HAZMAT calls and responses		8/2007	In progress
GH-4	Roadway and Bridge Maintenance	Maintain work order system and erosion & sediment control BMPs during activities as required by the TPDES CGP	List of maintenance activities		8/2007	In progress
GH-5	Material Storage for Metal	None	none		2/2008	Completed 8/12/09
GH-6	Material Storage for Used Tires	Inventory used tires twice per year, Recycle used tires Tarp temporarily stored used tires until contractor pickup Reassess annually the need for a covered storage	Used tire disposal invoices		2/2008	In progress
GH-7	Used Oil Collection and Recycling	Continue used oil collection and recycling program at the Public Works Service Center Use microbial hydrocarbon cleaner (as needed)	Trip tickets from disposal contractor		8/2007	In progress
GH-8	Use of Licensed Applicators for Herbicides	Annual training for applicators Document training and copies of licenses	Copies of licenses		8/2007	In progress
GH-9	Spill Prevention Training	Continue annual spill prevention training of County staff	Date of training List of attendees		8/2007	In progress
GH-10	Vehicle Maintenance	Inspect oil/sand separator twice per year Analyze material in separator and treat according to manufacturer's specifications with Power Play Active Bacteria	Maintenance logs Chemical treatment invoice		2/2008	In progress
GH-11	Litter Control	Quarterly inspection of facilities for litter	Dates of inspections Dates of cleanup (if needed)		8/2008	In progress
GH-12	Vehicle Washing	Inspect grit trap twice per year Maintain grit trap at least annually	Maintenance log for grit chamber		2/2008	In progress
GH-13	Aggregate Stockpiles	Inspect quarterly and maintain erosion control BMPs around stockpile sites	Inspection and maintenance logs		8/2007	In progress
GH-14	Vehicle Fueling	Maintain compliance with SPCC plan Preliminary design for canopy over fueling area	Leak detection reports Canopy preliminary design		8/2007	In progress

		Storm Water Management Program – Annual Report August 13, 2010 – August 12, 2011		TABLE 2 – YEAR 4 MEASURABLE GOAL STATUS
The table below lists the measurable goals developed for each BMP for Year 4, success and proposed changes. See individual BMP sheets for details and documentation.				
MCM(s)- BMP ID	BMP	Measurable Goal(s)	Success	Proposed Changes (submit NOC as needed)
PE-1	Classroom Storm Water Education	Attendance List	Met goal	None
PE-2	Storm Water Web Site	Screen shot of Stream Clean-Up page	Met goal	None
PE-3	Brochures	Year 5 topic Purchase order for brochures	Met goal	None

GH-13	Aggregate Stockpiles	Inspection and maintenance logs	Met goal	None
GH-14	Vehicle Fueling	Leak detection reports Canopy preliminary design	Met goal	None

E. Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Name (printed): Judge Keith Self Title: County Judge

Signature: _____ Date: _____

1.0 PURPOSE OF PROGRAM

This Storm Water Management Program (SWMP) was developed for Collin County to reduce the discharge of pollutants in storm water runoff to the maximum extent practicable (MEP) in its Municipal Separate Storm Sewer System (MS4). This Program was developed with coordination between the County and the affected stakeholders to customize a program for Collin County that meets state and federal program requirements and also utilizes current activities, addresses issues that are important to the county, and is economically feasible.

2.0 STATUS OF PERMIT COVERAGE

Collin County submitted its NOI and SWMP to the Texas Commission on Environmental Quality (TCEQ) on February 8, 2008 for coverage under the Texas Pollutant Discharge Elimination System (TPDES) General Permit for Storm Water Discharges from Small MS4s, General Permit No. TXR040000.

Upon completion of TCEQ's administrative and technical review and notification from the TCEQ Office of the Chief Clerk, the County complied with public notice requirements by publishing notice in the newspaper of largest circulation in Collin County. The Dallas Morning News is the newspaper of largest circulation.

The notice included the Executive Director of the TCEQ's preliminary determination on the NOI and SWMP. The notice also included the following information:

- The legal name of the MS4 operator;
- Identification of whether the NOI is for a new small MS4 or a renewal of an existing operation;
- The County's address
- A brief summary of the information included in the NOI (general location and description of classified receiving waters that receive discharges from the Small MS4;
- The location and mailing address where the public may provide comments to TCEQ;
- The public location where copies of the NOI and SWMP, as well as the General Permit and the Executive Director's Fact Sheet, may be reviewed;

The Notice of Application For Small Municipal Separate Storm Sewer System, General Permit Authorization No. TXR040035 was issued by TCEQ on September 15, 2008. The Notice was placed in the Dallas Morning News on April 3, 2009. The public comment period began on April 3, 2009 and extended for thirty days. The TCEQ determined that there was not a significant public interest for a public meeting; therefore the public comment period ended on May 2, 2009. The TCEQ issued permit coverage on June 8, 2009 and is currently in effect.

3.0 NOTICE OF CHANGE

Changes to the SWMP that are made after TCEQ approval of the NOI and SWMP may be made following written approval of the changes from the TCEQ, except that written approval is not required for the following changes:

- (a) Adding components, controls, or requirements to the SWMP; or replacing a BMP with an equivalent BMP, may be made by the permittee at any time upon submittal of a notice of change (NOC) form to the address specified on the form to the TCEQ.

- (b) Replacing a less effective or infeasible BMP specifically identified in the SWMP with an alternate BMP may be requested at any time. Changes must be submitted on an NOC form to the address specified on the form. Unless denied in writing by the TCEQ, the change shall be considered approved and may be implemented by the permittee 60 days from submitting the request. Such requests must include the following:
 - (1) an explanation of why the BMP was eliminated;
 - (2) an explanation of the effectiveness of the replacement BMP; and
 - (3) an explanation of why the replacement BMP is expected to achieve the goals of the replaced BMP.

As stated in the General Permit, the County may make changes to its SWMP. Since the County's SWMP and NOI have been approved by TCEQ, changes may be requested through a NOC form submitted to TCEQ. The County hereby requests changes to the SWMP to update implementation activities for two BMPs. The proposed changes to the implementation schedules will accomplish full implementation within the 5-year permit term. Additional details of the proposed changes are provided on the BMP Status pages (See **Section 5**) for the following BMPs. An NOC form requesting these changes has been submitted to TCEQ. A copy of the NOC form and revised BMP pages are included in **Appendix 1**.

- ID-6 Household Hazardous Waste Collection
- C-1 Review of Erosion Control Section of Subdivision Regulations

4.0 ANNUAL REPORTING REQUIREMENTS

A concise annual report must be submitted by Collin County to the Executive Director of the TCEQ within ninety days of the end of each permit year of the permit term. The permit term began when the TPDES Small MS4 General Permit became effective on August 13, 2007. The permit years and deadlines for annual reports are specified below.

Year	Reporting Cycle	Annual Report Due Date
1	8/13/2007 – 8/12/2008	11/12/2008
2	8/13/2008 – 8/12/2009	11/12/2009
3	8/13/2009 – 8/12/2010	11/12/2010
4	8/13/2010 – 8/12/2011	11/12/2011
5	8/13/2011 – 8/12/2012	11/12/2012

A copy of the annual report must be readily available for review by authorized TCEQ personnel upon request. The report must contain a number of elements including:

- Status of compliance with permit conditions, an assessment of the appropriateness of the identified BMPs, progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, the measurable goals for each of the MCMs, and an evaluation of the success of the implementation of the measurable goals,
- Status of any additional control measures implemented by the permittee,
- Any MCM activities implemented before permit issuance may be included as part of the first year's annual report,
- A summary of the results of the information (including monitoring data) collected and analyzed, if any,
- A summary of activities planned for the next reporting cycle,
- Proposed changes to the SWMP,
- Number of municipal construction activities authorized under this general permit and total number of acres disturbed,
- Number of non-municipal construction activities that occurred within the jurisdiction.

5.0 BMP IMPLEMENTATION STATUS

This report serves as the Year 4 Annual Report for Collin County for the period August 13, 2010 through August 12, 2011 and contains those elements outlined above. The annual report is organized by Minimum Control Measures with one-page summaries of the Year 4 activities; Year 5 planned activities, and proposed changes. Documentation that the County has achieved the measurable goals are provided on enclosed CD.

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	CLASSROOM STORM WATER EDUCATION WITH NPS MODELS		PE-1
Responsible Authority *Engineering Public Information	BMP DESCRIPTION <p>A classroom education program will be developed for Collin County to educate students on storm water related issues. The County will meet with representatives of Texas AgriLIFE Extension and the Heard Natural Science Museum and Wildlife Sanctuary to determine cooperative educational opportunities and review the available NPS models. The County will then meet with representatives of ISDs in the UA areas of Collin County to determine which materials they can incorporate into existing classes. School districts that serve the Collin County urbanized areas are primarily Lovejoy ISD, McKinney ISD, and Wylie ISD.</p>		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	Section of Population Addressed: Residents		
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Update educational materials • Hold 1 Educational class per ISD with NPS Model 		
	PROPOSED CHANGE None		
PROGRESS DURING CURRENT REPORTING PERIOD <p>Over the past year Texas AgriLIFE Extension has held several educational classes for school aged children on topics related to storm water management. A total of eight (8) classes were held in schools throughout Collin County. A total of 622 participants attended these classes on the subject of Water Quality and Water Education. The curriculum included “The Incredible Water Journey”, “Freddy the Fish”, and “Science with Water”.</p> <p>The County Sheriff’s Department has conducted classroom educational programs in area schools that have focused on illegal dumping. Collin County will continue these educational programs and try to expand the emphasis to include the consequences of illegal dumping on storm water quality. On January 13, 2011 Lee Howe (Collin County Sheriff’s Office) conducted a presentation to approximately 40 students at C.T. Eddins Elementary School (McKinney ISD). This goal has only been partially implemented due to the NPS model not being used. The goal for Year 5 is to fully implement the NPS model into the classroom education.</p>

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	STORM WATER WEB SITE		PE-2
Responsible Authority * Information Technology Public Information Engineering	BMP DESCRIPTION Collin County's website is nationally recognized and was named among the top county government portals in 2007. The County will develop a web page for their existing web site that specifically addresses storm water related issues. The Storm Water Web Site will promote and advertise upcoming Public Involvement events such as the Collin County Adventure Camp (PI-1), Stakeholders Meetings (PI-2), and Stream Clean-up Projects (PI-3) through an on-line Community Events Calendar. The web site will also publicize illicit discharge BMPs such as Promoting Used Oil Recycling (ID-6) and Recycling Centers (ID-7). The web site can be used to collect information submitted by the public regarding construction activities as required by TPDES regulations.		
	Section of Population Addressed: Residents, Visitors, Public Service Employees, Businesses, Commercial and Industrial Facilities, Construction Site Personnel.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Develop a web page to promote used oil recycling • Maintain web-site links 		
	PROPOSED CHANGE None		
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	PROGRESS DURING CURRENT REPORTING PERIOD The County continually updates the storm water website with links to related department web pages including the Engineering Department page. (http://www.co.collin.tx.us/engineering/stormwater/index.jsp) This year the site was updated to include scheduled Stream Clean up events in addition to general information about the County's Storm Water Management Program that is pertinent to all sectors of the community. Storm water related links are provided for online access to Collin County's TPDES Small MS4 General Permit and SWMP, Annual Reports, NCTCOG wet weather monitoring results, locations of recycling centers, illegal dumping information, and subdivision regulations. Links are also provided to the EPA and TCEQ storm water websites for additional information on NPDES/TPDES regulations. The web site promotes the County's Storm Water Hotline (Report-A-Polluter) and informs the public of what to report and how to report storm water violations. An email link to Report-A-Polluter was added. A link to the Construction Activities Storm Water Brochure (PE-3) was added.		
Implementation Activity	Measurable Goal	Completion Date

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	STORM WATER BROCHURES		PE-3
<p>Responsible Authority * Engineering</p> <p>Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____</p> <p>Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>BMP DESCRIPTION</p> <p>These are multi-page printed materials used to convey detailed information on specific topics related to storm water management. The brochures will be distributed to kiosks located at the Collin County Government Center and the Public Works Department. The brochures will also be available in PDF format on the County's Storm Water Web Page (PE-2). The County will coordinate with local businesses to provide additional means of distributing the brochures at designated locations within these businesses. Targeted distribution of brochures will also be used to address specific issues. The County has several existing brochures and will develop a county-wide catalog of available brochures and develop 3 new brochures for distribution in Years 3 and 5.</p> <p>Section of Population Addressed: Residents, Visitors, Public Service Employees, Businesses, Commercial and Industrial Facilities, Construction Site Personnel.</p>		
	<p>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</p> <ul style="list-style-type: none"> • Develop Year 5 brochure • Distribute brochures to kiosks 		
<p>PROPOSED CHANGE None</p>			
<p>PROGRESS DURING CURRENT REPORTING PERIOD</p> <p>The Year 4 brochures focus on the County's Storm Water program and target both the construction industry and residential communities. These brochures advertises Collin County's Storm Water Website and other helpful links that are resources for developing a construction storm water pollution prevention plan (SWPPP) and residential tips for preventing storm water pollution. The construction SWPPP brochure is available to educate contractors, builders and developers on TCEQ storm water requirements for construction sites. The community brochures provide residents with tips for preventing storm water pollution. The County took advantage of one of the NCTCOG's Regionally Developed Initiatives for public education. The County chose to distribute the brochure entitled "The Dirty Dozen" with 12 tips to prevent stormwater pollution.</p> <p>Copies of the construction site brochure are distributed as part of the commercial building permit application. All brochures are also on display in kiosks in the Engineering Department, the Wilmeth Road Service Center, and outside the Fire Marshal's office.</p> <p>The County selected a topic for Year 5. The Year 5 brochure will build upon the previously developed Year 3 brochure and go into more detail on preventing stormwater pollution at construction sites.</p>			
Implementation Activity	Measurable Goal	Completion Date	
<ul style="list-style-type: none"> • Select topic for Year 5 brochure • Develop Year 4 brochure • Distribute brochures to kiosks 	<ul style="list-style-type: none"> • Year 5 topic • Purchase order for brochures 	8/12/11

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<p align="center">REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011</p>	<p align="center">YEAR 4</p>
	<p align="center">COORDINATION WITH TEXAS AGRILIFE EXTENSION</p>	<p align="center">PE-4</p>
<p>Responsible Authority * Engineering</p>	<p>BMP DESCRIPTION</p> <p>The Texas AgriLIFE Extension conducts a variety of environmental education activities (Pond Management, Urban Rancher, Wetlands Workshop, 4-H Lawn and Safety Education Program, Master Gardeners) throughout the County.</p> <p>Texas AgriLIFE Extension of Collin County is a statewide educational agency and locally is a partnership between Collin County Commissioners Court, the Texas A&M University System and the United States Department of Agriculture. The County will coordinate with County AgriLIFE Extension staff to report annual educational activities in Collin County that are storm water related.</p> <p>A representative from Collin County will attend two Leadership Advisory Board Meetings annually and will advocate the use of more storm water related topics.</p> <p>Section of Population Addressed: Residents</p>	
<p>Appropriateness of BMP</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If No:</p> <p><input type="checkbox"/> Changes Proposed</p> <p><input type="checkbox"/> NOC Submitted Date _____</p>	<p>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</p> <ul style="list-style-type: none"> • Develop list of storm water educational presentations and activities • Attend 2 Leadership Advisory Board meetings 	
<p>Measurable Goal Successfully Implemented?</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>PROPOSED CHANGE</p> <p>NONE</p>	
<p>PROGRESS DURING CURRENT REPORTING PERIOD</p> <p>Representatives from the Collin County Engineering Department attended two meetings of the Leadership Advisory Board of the Texas AgriLIFE Extension. The meetings were held on September 22, 2010 and March 30, 2011 at the City of Allen Public Library. Meeting agendas and attendance sheets are attached.</p> <p>On August 20, 2010 representatives from the Collin County Engineering Department participated in the North Texas Water Education Conference. The conference was presented by Texas AgriLIFE Extension Service, USDA-Natural Resource Conservation Service, Collin County Master Gardeners, and Blackland Prairie Master Naturalists. The goal of the conference was to provide the public with science-based information on water related issues that affect North Texas. The program offered education that will allow communities to make informed decisions that have a positive impact on the environment and future water supply. A representative from the Collin County Engineering Department delivered a presentation on the Collin County Storm Water Program and Groundwater Conservation District.</p>		
<p align="center">Implementation Activity</p>	<p align="center">Measurable Goal</p>	<p align="center">Completion Date</p>

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	NCTCOG STORM WATER PUBLIC EDUCATION TASK FORCE		PE-5
Responsible Authority * Engineering	BMP DESCRIPTION The NCTCOG has assembled a Public Education Task Force to develop and distribute educational materials and to conduct community outreach activities that will inform the public within the MS4 service area. The targeted audience includes visitors to the County as well as residents, business owners, commercial and industrial facilities, construction site personnel and public service employees. Outreach activities will seek to inform the public about storm water impacts on water quality and hazards associated with illegal discharges and improper disposal of waste and steps that citizens can take to reduce pollutants in storm water runoff. Collin County will participate in the task force meetings and regionally developed initiatives (RDIs) for public education.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	Section of Population Addressed: RDIs developed during Year 4 target Residents, Businesses, Commercial and Industrial Facilities, and Construction Site Personnel.		
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Attend and stay informed of 2 Task Force meetings • Tailor RDIs and implement locally to educate public • Participate in assessments of initiatives for permit renewal 		
	PROPOSED CHANGE NONE		
PROGRESS DURING CURRENT REPORTING PERIOD The County attended the June 15, 2011 Task Force meeting during Year 4. The agenda items and sign in sheets for the June task force meeting are attached. Agenda items for the meeting included Pet Waste, Storm Water Issues, Yard Waste, Construction Site Field Guide, and a Municipal Roundtable. The County stayed informed of other Task Force meetings but was not able to attend. The County plans participate in at least two Public Education Task Force meetings during Year 5. A copy of current Regionally Developed Initiatives (RDIs) was obtained for review to determine which of these RDIs may be appropriate for use in Collin County. The County is taking advantage of one RDI (The Dirty Dozen brochure) in Year 4 and has selected the RDI for construction site pollution as the brochure topic for Year 5.			
Implementation Activity	Measurable Goal	Completion Date

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010– AUGUST 12, 2011		YEAR 4
	COLLIN COUNTY ADVENTURE CAMP		PI-1
<p>Responsible Authority * Engineering</p> <p>Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____</p> <p>Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>BMP DESCRIPTION</p> <p>In 1995 representatives of the Collin County Commissioner’s Court, the YMCA, the Heard Museum, and school districts initiated a plan to construct, and operate a camp to provide life enhancing outdoor educational and recreational experiences in and for Collin County children and families. County bond funds were used to acquire land and construct camp facilities. The Camp is operated by the Metropolitan Dallas YMCA. The Camp opened in 2006 and its first Open House “Community Day” was attended by 500 community residents. By the Fall of 2006, over 7,000 students had attended Collin County YMCA Adventure Camp for outdoor education, and over 3,000 family and community guests attended for conferences and retreats. The Camp offers several lesson plans that are well suited for storm water education including Earth Processes and Water Ecology. In the Water Quality Lab students assess the quality of the lake water through biological sampling (using pond nets to find aquatic life), physical tests (using a Secchi disc and thermometer), and chemical tests (for dissolved oxygen and carbon dioxide).</p>		
	<p>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</p> <ul style="list-style-type: none"> • Offer lesson plans to participating ISDs 		
	<p>PROPOSED CHANGE</p> <p>NONE</p>		
<p>PROGRESS DURING CURRENT REPORTING PERIOD</p> <p>School Districts represented at the Collin County Adventure Camp for Year 4 included: Plano ISD, McKinney ISD, Anna ISD, Allen ISD, Richardson ISD, Dallas ISD, Lovejoy ISD, Princeton ISD, Community ISD, Sam Rayburn ISD as well as some private schools in Dallas. Over 7,100 fourth and fifth grade students participated in camps throughout the year. Stormwater topics included “Taming the Land” and “Learning the Lake”. These lesson plans were offered as multi-day exercises in a camp setting, but were open to day groups as well. The County will continue to track the number of school children that participate in these programs as a measurable goal for reporting progress.</p>

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010– AUGUST 12, 2011		YEAR 4
	STORM WATER STAKEHOLDERS COMMITTEE		PI-2
Responsible Authority * Engineering	BMP DESCRIPTION Collin County formed a Storm Water Stakeholders Committee (SWSC) to involve the public in the development of their Storm Water Management Program. The Committee consists of invitees from County staff, municipal storm water coordinators, County Extension, school districts, environmental education specialists from the Heard Natural Science Museum, North Texas Municipal Water District, Texas A&M Urban Solutions Center, developers and homebuilders. The SWSC met to review possible BMPs and to vote on which BMPs are most applicable to Collin County. The committee will meet annually in October to review the County's Annual Report to TCEQ, evaluate the effectiveness of selected BMPs and suggest changes (if necessary).		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____			
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> Hold 1 meeting to review Year 4 Annual Report 		
	PROPOSED CHANGE NONE		
PROGRESS DURING CURRENT REPORTING PERIOD The County held a meeting of the Storm Water Stakeholders Committee (SWSC) made up of County staff, community leaders from the surrounding cities, educational professionals and homebuilders/developers. The meeting was held in the Commissioner's Court chambers at the Collin County Administration Building located at 2300 Bloomdale Road in McKinney. Eighteen representatives attended the SWSG meeting on November 9, 2010 to review the County's Year 3 progress toward meeting implementation goals and review the Year 3 Annual report prior to submission to TCEQ. Copies of the meeting minutes and attendance sheet are attached.			
Implementation Activity	Measurable Goal	Completion Date

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010– AUGUST 12, 2011	YEAR 4
	STREAM CLEANUP PROJECTS	PI-3
Responsible Authority * Road and Bridge Public Information	BMP DESCRIPTION Collin County Road and Bridge Department will coordinate stream cleanup projects with various local volunteer groups and organizations. Specific sites will be selected based on impact by trash, especially those areas with heavy pedestrian and vehicular traffic. Access will also guide site selection for convenience of the volunteers and to minimize permission requirements.	
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Advertise program to organizations • Note potential locations during visual monitoring and bridge maintenance • Schedule and hold one cleanup event 	
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	PROPOSED CHANGE None	
PROGRESS DURING CURRENT REPORTING PERIOD The County selected four locations for stream cleanups based on illegal dumping reports/complaints. The Stream Cleanup Event was held on May 14, 2011 at the following stream crossing locations: CR 466 at Stiff Creek, CR412 at Stiff Creek, CR 424 at Sister Grove, and CR 375 at Branch of the East Fork. Twelve volunteers and staff attended the event and 1.61 tons of garbage and debris was removed from these locations. The County currently has their own litter pickup kits for their community service volunteers and employees. The County uses probationers that volunteer for stream cleanup projects to meet their community service requirements. In the future, Collin County will coordinate stream cleanup projects with neighboring MS4s such as McKinney and Frisco to obtain greater volunteer participation among the general public. Many of the streams in McKinney have steep banks which in some cases are not conducive to volunteer access due to safety issues. Collin County will coordinate with McKinney to provide potential cleanup sites for cooperative stream cleanup activities.		
Implementation Activity	Measurable Goal	Completion Date
<ul style="list-style-type: none"> • Advertise program to organizations • Note potential locations during visual monitoring and bridge maintenance • Schedule and hold one cleanup event 	<ul style="list-style-type: none"> • 1 Promotional Flyer • At least 1 clean up event 	8/12/11

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010– AUGUST 12, 2011		YEAR 4
	NCTCOG PUBLIC WORKS COUNCIL		PI-4
Responsible Authority * Engineering	BMP DESCRIPTION The Public Works Council (PWC), initially established as the Public Works Advisory Committee in 1984, provides expertise and support to the NCTCOG on a wide range of local public works issues. The PWC provides continuing advice regarding the Public Works Construction Standards and comprehensive and consistent storm water management through iSWM. The PWC meets several times per year and hosts a Public Works Roundup annually. The PWC structure has 16 seats for the nine cities over 100,000 population (two seats each for the three largest cities) and the four largest counties including Collin County. The Director of Engineering of Collin County is a member of the PWC.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> Attend and stay informed of Public Works Council meetings 		
Measurable Goal Successfully Implemented? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	PROPOSED CHANGE None		
PROGRESS DURING CURRENT REPORTING PERIOD County personnel did not attend the Public Works Council meetings during Year 4. There was miscommunication between County personnel as well as a lapse in the County's membership in the NCTCOG. For Year 5, in the event that the Director of Engineering is unable to attend a meeting, the Assistant Director of Engineering will attend the meetings to achieve the measurable goal for this BMP. Although the County did not attend any meetings, they did stay informed of the topics covered during meetings by reviewing the meeting documents (agenda, minutes, presentations, etc.) as posted on the NCTCOG web site.

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4						
	STORM DRAIN SYSTEM MAPPING		ID-1						
BMP DESCRIPTION To facilitate their illicit discharge detection and elimination program, Collin County will develop a storm drain system map, which identifies the location of all outfalls and the names and locations of the waters of the U.S. to which they drain. Collin County will develop a Geographic Information System (GIS) map. Supplemental information on outfall locations will be derived from visual inspections along stream banks. Precise locations of outfalls will be determined through the inspection of aerial photographs and field verification with a Global Positioning System (GPS). The County will facilitate the development of a county-wide system map by meeting with GIS personnel from municipalities in the County and consolidating the available GIS data into a county-wide system map. County personnel will attend NCTCOG training on outfall mapping.									
ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Locate and map outfalls in Collin County UA areas on Muddy Creek and tributaries of Lake Lavon Near Lucas • Obtain and Consolidate available GIS data municipalities 									
PROPOSED CHANGE NONE									
PROGRESS DURING CURRENT REPORTING PERIOD GIS contacts for the Phase I and Phase II cities were identified. Phase II communities in Collin County include Allen, Carrollton, Fairview, Frisco, Lowry Crossing, Lucas, McKinney, Murphy, New Hope, Parker, Richardson, Sachse and Wylie. St. Paul received an MS4 waiver from TCEQ. The two Phase I cities in Collin County are Dallas and Plano. The IT/GIS Department coordinated with local MS4s to obtain and share available data. Other than McKinney and Frisco, many Phase II cities are in the infancy stages of GIS mapping. Several communities are willing to consider using a standardized list of attribute data to provide consistency and allow for sharing of data. The Cities of Allen, Fairview, Lucas, Murphy, Parker, Sachse, and Wylie have not completed their outfall mapping and GIS data is not available at this time. The current County GIS database includes roads and culverts. Within unincorporated Collin County, the storm drain system consists exclusively of roadside ditches so the current GIS database characterizes the storm drain system that Collin County is responsible for maintaining. This GIS database is updated regularly based on new roads and culverts installed in unincorporated Collin County. A storm drain system map for the UA south of New Hope was developed. The County GIS staff attended the annual ESRI User Conference [South Central Arc User Group (SCAUG)] during Year 4. Many of the presentations and training sessions focused on new inventory and mapping tools for ArcGIS 10. Meeting agendas are attached.									
<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 33%;">Implementation Activity</th> <th style="width: 33%;">Measurable Goal</th> <th style="width: 34%;">Completion Date</th> </tr> </thead> <tbody> <tr> <td> <ul style="list-style-type: none"> • Locate and map outfalls in Collin County UA areas south of New Hope • Coordination meeting City GIS coordinators in Collin County • Sharing of available data </td> <td> <ul style="list-style-type: none"> • Outfall Map for UA south of New Hope • Meeting Minutes • Countywide map </td> <td style="text-align: center;">8/12/11</td> </tr> </tbody> </table>				Implementation Activity	Measurable Goal	Completion Date	<ul style="list-style-type: none"> • Locate and map outfalls in Collin County UA areas south of New Hope • Coordination meeting City GIS coordinators in Collin County • Sharing of available data 	<ul style="list-style-type: none"> • Outfall Map for UA south of New Hope • Meeting Minutes • Countywide map 	8/12/11

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010– AUGUST 12, 2011		YEAR 4
	VISUAL MONITORING OF OUTFALLS		ID-2
Responsible Authority * Public Works	BMP DESCRIPTION Collin County staff will perform visual monitoring in the Urbanized Areas during dry weather periods to make visual inspections for the presence of certain pollutants. If the County finds that the contamination is coming from an adjacent MS4, the County will refer the inspection results to the storm water coordinator for that municipality. The County may utilize GPS equipment to document the location of the visual inspections, allowing them to be related to locations on the GIS storm drain system map for future reference and to document precise locations if environmental concerns are identified.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Walk accessible reaches/perform visual monitoring for Muddy Creek and tributaries of Lake Lavon near Lucas • Maintain tracking system/verify GIS map 		
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	PROPOSED CHANGE None		
PROGRESS DURING CURRENT REPORTING PERIOD The County reviewed the Illicit Discharge Detection and Elimination guidance manual by the Center for Watershed Protection (October 2004). Several Collin County staff members attended a Dry Weather Screening Training sponsored by the NCTCOG on 6/22/11 to learn about visual monitoring techniques. The County developed procedures based on the CWP guidance manual and the NCTCOG training manual. County GIS staff performed a mapping analysis to identify outfalls in Collin County's UA south of New Hope. The outfall map for this area is attached. Based on this analysis, no storm water outfalls were identified in the area south of New Hope for Year 4 visual monitoring.			
Implementation Activity	Measurable Goal	Completion Date

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010– AUGUST 12, 2011		YEAR 4
	ILLICIT DISCHARGE INVESTIGATIONS		ID-3
Responsible Authority * Public Works	BMP DESCRIPTION The County lacks the legal authority to prohibit illicit discharges and illegal connections in the unincorporated UA. The County will seek voluntary compliance through Visual Monitoring of Outfalls (ID-2) to detect illicit discharges followed up by investigations such as dye or smoke testing (as appropriate) to determine the source of the illicit discharge to its MS4. As the County will not have “right-of-entry” typically granted by ordinances, the County will seek the cooperation of suspected dischargers in identifying and removing illegal connections. If voluntary compliance cannot be achieved, suspected illicit discharges will be reported to the TCEQ for follow-up investigations.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Investigate suspected illicit discharges (as necessary) • Seek voluntary compliance or refer to adjacent MS4 or TCEQ 		
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	PROPOSED CHANGE None		
PROGRESS DURING CURRENT REPORTING PERIOD The County reviewed the Illicit Discharge Detection and Elimination guidance manual by the Center for Watershed Protection (October 2004). The County developed procedures for illicit discharge investigations based on the guidance manual. No phone calls or complaints were received during Year 4 to warrant investigations. No outfalls were identified in the area south of New Hope that required visual monitoring or follow-up investigations.

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	NCTCOG COOPERATIVE WET WEATHER MONITORING		ID-4
Responsible Authority * Engineering	BMP DESCRIPTION NCTCOG is assisting local entities through a cooperative regional monitoring program for collection of wet weather water quality data. The regional program includes the Phase I cities of Dallas, Fort Worth, Arlington, Garland, Irving, Plano, Mesquite; the local districts of the TxDOT; and the North Texas Tollway Authority (NTTA). The regional monitoring plan calls for quarterly sampling of up to three monitoring stations in each of the nine watersheds per year for three years beginning January 1, 2007. A total of 300 sample events are anticipated to be collected. Each sample will be analyzed for 18 parameters. Although this monitoring program was designed to meet the permit requirements of Phase I cities, it will also benefit Phase II cities and may be used to determine long-term water quality trends. The County will obtain and review the NCTCOG annual reports for the monitoring and make it available to the public through links on their web page.

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	PROMOTE USED OIL RECYCLING (FORMERLY HOUSEHOLD HAZARDOUS WASTE COLLECTION)		ID-6
Responsible Authority * Engineering	BMP DESCRIPTION Collin County will promote used oil recycling through various businesses that accept the oil for free. The County will also continue to push for and apply for funding so the County can implement the household hazardous waste collection in the future for its residents.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input checked="" type="checkbox"/> Changes Proposed <input checked="" type="checkbox"/> NOC Submitted Date: <u>11/11/11</u>	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> Promote used oil recycling through various businesses on web site 		
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	PROPOSED CHANGE The County will promote the recycling of used oil in place of household hazardous waste. TCEQ no longer provides household hazardous waste recycling and Cities within Collin County only allow residents to use this service. Used oil recycling scored the next highest when stakeholders voted for BMPs to include in the County's SWMP. An NOC form has been submitted to TCEQ and a copy is included in Appendix 1 of this report.		
PROGRESS DURING CURRENT REPORTING PERIOD The County applied for grant from the NCTCOG to fund a HHW Collection program in the County, but was denied funding for the project as previously reported for Year 3. The County was active in promoting TCEQ Agricultural Waste Collection Days as a mechanism for HHW disposal during Year 4 and promoted events held in Montague County (September 14, 2010) and Ellis County (September 16, 2010). TCEQ discontinued this program during Year 4. The County will substitute an equivalent BMP for HHW collection. The County will promote used oil recycling and any other collection events available to County residents. The County will also continue to push for and apply for funding so the County can sponsor their own collection events.

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	REDUCE FAILING SEPTIC SYSTEMS		ID-9
Responsible Authority * Development Services	BMP DESCRIPTION <p>The County administers the On-Site Sewage Facility (OSSF) program in Collin County. The County has regulations that help to reduce the number of failing septic systems. The County is in charge of licensing and inspection of OSSFs. Each new homeowner must re-register their septic system. Upon transfer of utility, the electrical provider in the area requires that the septic system be inspected prior to setting up a new account. The County maintains a database of all OSSF inspections.</p>		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> Continue OSSF inspection program 		
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	PROPOSED CHANGE None		
PROGRESS DURING CURRENT REPORTING PERIOD <p>Collin County Development Services Department administers the On-Site Sewage Facility (OSSF) program in the County and conducts inspections for new and malfunctioning systems. The County conducted 85 inspections of malfunctioning systems and 363 inspections for new systems during Year 4 of the permit term. The County maintains a tracking systems that records all work orders related to OSSF inspections. The tracking system documents the address of the system and comments regarding the complaint such as “septic surfacing on top of ground”, “odor” etc. The tracking system also documents the County crew that responded, the start and end dates and the Job Order Status. The tracking system may be queried for specific data ranges. The County is also able to generate a summary report for each inspector or a summary report for all OSSF inspections.</p>

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	EROSION CONTROL PLAN REVIEW PROCEDURES		C-2
<p>Responsible Authority * Engineering Development Services</p> <p>Appropriateness of BMP</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If No:</p> <p><input type="checkbox"/> Changes Proposed</p> <p><input type="checkbox"/> NOC Submitted Date _____</p> <p>Measurable Goal Successfully Implemented?</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>BMP DESCRIPTION</p> <p>All of the urbanized area in the unincorporated areas of Collin County is contained within the ETJs of the Cities of Lucas, McKinney and Wylie, and the County has interlocal agreements with each of these cities to regulate subdivisions in their ETJ, in accordance with House Bill 1445 and Chapter 242 of the Local Government Code. As such, inside the ETJs, plans which conform to that City's stricter requirements are submitted to the City, including erosion and sediment control plans, which the City reviews. For subdivisions inside the ETJ that disturb 1 acre or greater, the CGP requires the development of a SWPPP and construction site notices (CSN) or NOIs are to be provided to the MS4 operator (County). The County will track the CSNs and NOI/NOC/NOTs submitted by construction contractors.</p> <p>For the unincorporated areas, the County's authority is limited to commercial building permits, which includes submittal of plans and a SWPPP for disturbances between 1 and 5 acres. For each SWPPP submitted, the County will verify if it is in the Collin County urbanized area, and if so will provide additional inspection.</p>		
	<p>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</p> <ul style="list-style-type: none"> • Verify and track SWPPPs submitted to the County • Review EC plans outside of ETJ (if authorized) 		
	<p>PROPOSED CHANGE</p> <p>NONE</p>		
	<p>PROGRESS DURING CURRENT REPORTING PERIOD</p> <p>During Year 4, the County received information from 1 contractor for new subdivisions or commercial building permits. The County's tracking system records the name of the contractor, the type of project, size of project (acres), address, date CSN and NOI/NOC/NOT are received and whether a copy of the SWPPP and/or site notices are on file with the County. The Engineering Department confirms that the documents received from contractors are for construction activities within the UA under Collin County jurisdiction and performs a review of the erosion and sediment control plans and off-site drainage plans.</p> <p>Revised plan review procedures include adding language to the commercial permit package that requires site notice submittal (1-5 acres) or NOI/NOC/NOT submittal (>5 acres) and inspections to verify compliance with the CGP.</p>		
<p>Implementation Activity</p> <ul style="list-style-type: none"> • Verify and track SWPPPs submitted to the County • Review EC plans outside of ETJ (if authorized) 		<p>Measurable Goal</p> <ul style="list-style-type: none"> • List NOIs/CSNs # of plans reviewed 	<p>Completion Date</p> <p>8/12/11</p>

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010– AUGUST 12, 2011		YEAR 4
	LONG TERM OPERATION AND MAINTENANCE OF BMPs		PC-1
BMP DESCRIPTION The TPDES Small MS4 general permit requires jurisdictions to provide for the long-term operation and maintenance of the post-construction BMPs that are constructed in new development and redevelopment projects that disturb areas of one acre or greater.			
Responsible Authority * Engineering Public Works GIS / Rural Addressing			
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____			
ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Continue to maintain BMPs according to O&M plan • Maintain and update GIS map (as needed) 			
PROPOSED CHANGE None			
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No			
PROGRESS DURING CURRENT REPORTING PERIOD Recent County construction activity within the MS4 has resulted in permanent BMPs to stabilize drainage areas. The County is currently evaluating and mapping these BMP structures to establish a data base for future maintenance and upkeep. Road side ditches which are part of the County's MS4 consist of grassed lined channels that are maintained under Good Housekeeping BMP (GH-2). O&M practices and schedules have been developed based on EPA recommended frequency for different BMPs (detention/retention practices, infiltration facilities, dry swales, grassed channels, biofilters, filter strips, bioretention etc.). These O&M procedures will be implemented when post-construction BMPs are identified that need County maintenance. A GIS map of their locations will be developed.

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	MATERIAL STORAGE FOR METAL		GH-5
Responsible Authority *Public Works	BMP DESCRIPTION This management practice involves the proper storage of materials at County facilities to prevent or reduce the discharge of pollutants to storm water. These practices typically involve storing metals in a designated area, under cover to reduce exposure to storm water, installing secondary containment, inspecting the storage areas frequently and training employees. The County will design material storage areas for metal that is stored at three of the County facilities, the Public Works Service Center, the Farmersville County facility and the Weston County facility.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • None 		
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	PROPOSED CHANGE NONE		
PROGRESS DURING CURRENT REPORTING PERIOD The County was able to discard or recycle much of the stored metal through contracts with Garland Steel and Metal Recycler. The remainder of the metal has been moved to an indoor storage building and is not exposed to storm water to the maximum extent possible. Any metal that requires temporary outdoor storage will be covered with a tarp to prevent contact with storm water.			
Implementation Activity		Measurable Goal	Completion Date
<ul style="list-style-type: none"> • None 		<ul style="list-style-type: none"> • None 	Completed during Year 2 8/12/11

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	MATERIAL STORAGE FOR USED TIRES		GH-6
Responsible Authority *Public Works	BMP DESCRIPTION The County has secured a private contract for disposal of the used tires and will implement procedures to ensure that the inventory of used tires remains small and the storage times are reduced. The need for a covered material storage area will be reassessed on an annual basis for two of the County facilities, the Public Works Service Center and the Farmersville County facility. If necessary, the County will design and construct a material storage area for used tires.		
	To assess the need for covered storage, the County will conduct an inventory every 6 months of the numbers of used tires and the length of storage. A suitable marking system will be used to mark the tires to indicate the date that the used tire was placed in storage area and all efforts will be made to minimize the storage times.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Inventory used tires twice per year • Recycle/dispose used tires • Tarp temporarily stored used tires until contractor pickup • Reassess annually the need for a covered storage 		
	Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
PROPOSED CHANGE None			
PROGRESS DURING CURRENT REPORTING PERIOD The County recycled 525 used tires during Year 4 (Passenger/Lt Truck= 132, Truck=393, Heavy off Roads= 0). In addition, the County shredded approximately 4,089 tires and disposed of them in a landfill. The County will continue to have a private disposal company pick up larger truck and off road tires that the County owned tire shredder cannot process. The shredder along with the disposal company will keep used tire storage to a minimum and reduce the amount of time used tires are exposed to rain water. Big City Tire Service is now picking up the larger tires at no cost to the County.			
Implementation Activity		Measurable Goal	Completion Date

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	USED OIL COLLECTION AND RECYCLING		GH-7
Responsible Authority *Public Works/ Equipment Services	BMP DESCRIPTION Used oil collection and recycling programs provide a responsible alternative to disposal that is beneficial to the environment and public health. Collin County currently collects and recycles used motor oil and filters from the Public Works Service Center. The County will document the recycling of automotive fluids and provide trip tickets from the disposal contractor.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____			
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> • Continue used oil collection and recycling program at the Public Works Service Center • Use microbial hydrocarbon cleaner (as needed) 		
	PROPOSED CHANGE NONE		
PROGRESS DURING CURRENT REPORTING PERIOD The County recycled a total of 2,305 gallons of used motor oil and (6) 55-gallon drums of used oil filters during Year 4 on the following dates: 9/29/10, 11/22/10, 1/18/11, 3/21/11, 5/17/11 and 7/19/11. United Recyclers provides non-hazardous special waste manifests to document the quantities of used oil and filters recycled. Copies of the waste manifests are attached.

Education is provided on proper storage and application techniques. This certification program is administered by the Texas Department of Agriculture and provides information on alternative pest control techniques and explains dosage calculations. The certification program requires an annual exam and continuing education credits for recertification. The County's applicators are licensed as Noncommercial Applicators for restricted-use or state-limited-use pesticides. Noncommercial applicators must renew annually and obtain five CEUs each year with one credit each from two of the following categories: laws and regulations, integrated pest management or drift minimization. The County will require their applicators to maintain their licenses and attend annual training classes and retain copies of their licenses for submittal with the annual reports.</p>		
	<p>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</p> <ul style="list-style-type: none"> • Annual training for applicators • Document training and copies of licenses 		
	<p>PROPOSED CHANGE</p> <p>NONE</p>		
	<p>PROGRESS DURING CURRENT REPORTING PERIOD</p> <p>The County sent 3 staff members to training for maintenance of their Noncommercial Political Pesticide Applicator License. Each applicator renews their license on the anniversary of its issuance. The licenses expire one year from the effective date unless renewed. Continued certification requires annual training and CEUs. The licenses for County staff were issued on 9/05/10, 11/5/10, and 2/1/11 and expires one-year from date of issuance. Licenses are Texas Department of Agriculture Category 5 for "Right-of-Way Pest Control."</p>

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	SPILL PREVENTION TRAINING		GH-9
Responsible Authority *Public Works	BMP DESCRIPTION The County has 21 employees that are trained and certified in spill prevention. The 8-hour training is conducted annually by Sigma Consultants. The County has spill response kits at the service centers with a 30' long sock boom for large spills and absorbent pads for smaller spills. The spill response kits contain Tyvex suits and personal protection equipment for employee safety. The annual spill prevention training refreshes the employee's knowledge of spill prevention, cleanup and personal protection equipment.

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	VEHICLE MAINTENANCE		GH-10
<p>Responsible Authority *Public Works / Equipment Services</p> <p>Appropriateness of BMP</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If No:</p> <p><input type="checkbox"/> Changes Proposed</p> <p><input type="checkbox"/> NOC Submitted Date _____</p> <p>Measurable Goal Successfully Implemented?</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>BMP DESCRIPTION</p> <p>This BMP involves the development of a program that focuses on controlling pollutants and reducing storm water impacts from the County's automobile maintenance shop. Vehicle maintenance facilities typically contain significant quantities of fuels, solvents and motor oils and often generate large amounts of waste. Preventative measures such as good housekeeping, spill control, parts cleaning and recycling of automotive fluids including antifreeze, waste oil, transmission and hydraulic fluid are necessary to minimize the impacts of this generated waste.</p> <p>The Collin County Public Works Service Center performs maintenance on County vehicles. A central floor drain within the fleet maintenance shop drains through an oil/sand separator before being discharged to the sanitary sewer. The soil/sand separator must be maintained on a regular basis to function properly. The County will continue to maintain the oil/sand separator and document these maintenance activities as part of their SWMP.</p> <p>The County treats oil/sand filter with Power Play Active Bacteria that breaks down any fuels, solvents and motor oil. No clean out and disposal is necessary. The County applies treatment based on manufacturers' specifications and documents dates of treatment in a maintenance log. Annual testing of TPH allows staff to access the treatment effectiveness and modify dosage (if needed).</p>		
	<p>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</p> <ul style="list-style-type: none"> • Inspect oil/sand separator twice per year • Treat separator with Power Play Active Bacteria according to manufacturer's specifications 		
	<p>PROPOSED CHANGE</p> <p>NONE</p>		
	<p>PROGRESS DURING CURRENT REPORTING PERIOD</p> <p>The oil/sand separator located at the maintenance shop was inspected as scheduled during Year 4. The separator was sampled 28 April 2011. The system continues to be treated with Power Play Active Bacteria bio-reactor. The oil/sand separator is scheduled to be cleaned and filter material replaced by Select Environmental Petroleum Management Co. in the first quarter of Year 5.</p>

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011	YEAR 4
	LITTER CONTROL	GH-11
Responsible Authority *Public Works/ Facilities Maintenance	BMP DESCRIPTION Litter control is a management practice that involves educating and training County employees on the proper storage and disposal of all materials found at a County facilities. The goal of a litter control program is to prevent the discharge of trash, debris and other pollutants from County facilities into local waterways and maintain safe and healthy work places. The County adheres to a litter control program at their Public Works Service Centers and administration buildings. Practices include tarp coverings on trucks to prevent wind-blown material and trash cans located conveniently throughout the facilities including employee break areas as well as at fueling islands. The County will implement quarterly inspections at Public Works Service Centers and schedule litter cleanup (as necessary).	
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> Quarterly inspection of facilities for litter 	
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	PROPOSED CHANGE NONE	
PROGRESS DURING CURRENT REPORTING PERIOD Trash cans located at each of the four County Service Centers are emptied daily by Community Service Correction Division (CSCD) personnel and transferred to dumpsters. CSCD personnel also conducts litter pickup daily. Any windblown trash in the vicinity is picked up at that time. The County has a contract with IESI for dumpster pickup and disposal. IESI picks up the dumpsters biweekly. Dumpster lids are kept closed to prevent windblown trash and storm water exposure. Quarterly inspections for litter control are performed at each Service Center along with BMP inspections for aggregate stockpiles (See BMP GH-13). If excessive trash is observed, it is noted in the Comments section of the BMP Inspection Form and CSCD personnel are instructed to pick up litter at that facility the following day. Inspections at each of the 4 County facility occurred on 8/18/2010, 10/19/2010, 11/10/2010, 2/18/2011, 5/11/2011, 8/10/2011. Cleanups are done at a regular basis.

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	AGGREGATE STOCKPILES		GH-13
Responsible Authority *Public Works/ Road and Bridge	BMP DESCRIPTION This practice involves the development of a program to properly store road sand and aggregate. Proper storage and application can prevent the transport of the material with runoff. Stockpiles of sand and other road base materials are located at all four of the County Facilities: the Public Works Service Center in McKinney, the Farmersville Facility, the Weston Facility, and the Copeville Facility. The County will maintain erosion control BMPs (silt fence or socks) around stockpile areas to prevent the transport of material off-site. The County will inspect these BMPs quarterly and replace or repair the BMPs as necessary.		
Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____			
Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD <ul style="list-style-type: none"> Inspect quarterly and maintain erosion control BMPs around stockpile sites 		
	PROPOSED CHANGE NONE		
PROGRESS DURING CURRENT REPORTING PERIOD The aggregate stockpile areas were inspected quarterly and documented on the Public Works Road and Bridge BMP Inspection Forms. Based on the inspections, erosion control practices (berms, silt fence or filter socks) were replaced, repaired or maintained. Inspections at each of the 4 facility stockpiles occurred on 8/18/2010, 10/19/2010, 11/10/2010, 2/18/2011, 5/11/2011, 8/10/2011.

STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	REPORTING PERIOD: AUGUST 13, 2010 – AUGUST 12, 2011		YEAR 4
	VEHICLE FUELING		GH-14
<p>Responsible Authority *Public Works/ Equipment Services</p> <p>Appropriateness of BMP <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____</p> <p>Measurable Goal Successfully Implemented? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>BMP DESCRIPTION</p> <p>This best management practice involves the education of County employees on the potential water quality impacts that can result from discharges associated with fueling stations and the development of procedures to minimize or prevent discharges. The County dispenses fuel at two locations, the Public Works Service Center and the Farmersville Facility. The County maintains spill prevention control and counter-measure (SPCC) plans for both facilities. The County also maintains absorbent material at all fuel islands for small spills and spill kits for larger spills. The County utilizes a canopy over the fuel island at the Public Works Service Center to prevent contact of rainwater with the fueling station. This site utilizes 2 underground storage tanks, one stores 6,000 gallons of automobile fuel and the other stores 12,000 gallons of diesel. The County's Farmersville Facility dispenses gasoline and diesel fuel from a two-chambered vaulted above ground storage tank that stores 6,000 gallons (5,000 diesel, 1,000 gas). The Farmersville fueling area is not covered. The County will provide for a covering or canopy at the Farmersville Facility as part of this BMP.</p>		
	<p>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</p> <ul style="list-style-type: none"> • Maintain compliance with SPCC plan • Construct canopy over fueling area 		
	<p>PROPOSED CHANGE</p> <p>None</p>		
<p>PROGRESS DURING CURRENT REPORTING PERIOD</p> <p>The County maintains updated Spill Prevention Control and Countermeasure Plan for Equipment Services at the Public Works Service Center at Wilmeth Road and the Farmersville Facility. The current plans were certified by a Professional Engineer in August of 2009. The required training detailed in the plan educates the County employees on the potential water quality impacts that may results from discharges from these two facilities.</p> <p>Leak detection tests were conducted on a monthly basis during Year 4 with passing results. Results of leak detection tests are maintained on-site and are available for review upon request.</p> <p>The design of a canopy over the fuel storage and dispensing equipment at the Farmersville Facility is currently in design. Construction is expected to be completed by the summer of Year 5.</p>

NOC Form to TCEQ requesting changes to SWMP

**Notice of Change (NOC) to an Authorization
for Storm Water Discharges from Small
Municipal Separate Storm Sewer Systems
(MS4) under the TPDES Phase II MS4 General
Permit (TXR040000)**

TCEQ Office Use Only
Permit No.:
RN:
CN:

***** IMPORTANT *****

PLEASE READ THE FOLLOWING INFORMATION AND INSTRUCTIONS BEFORE FILLING OUT THIS FORM.

The form will be returned for one of the following reasons:

- 1) the permit number is not provided, invalid, or no longer active,
- 2) a wet ink signature of person meeting signatory requirements for permittee is not provided,
- 3) the current permittee is not the applicant, and;
- 4) a requested change in operator name is not a legal name change .

THIS FORM CANNOT BE USED FOR A CHANGE IN OPERATOR. REFER TO YOUR GENERAL PERMIT.

What is the Permit Number of the authorization to be changed?	TXR04 0035
A. APPLICANT INFORMATION: Search Central Registry at www4.tceq.state.tx.us/crpub	
1. Operator (Permittee)	
a. What is the full Legal Name of the current Operator as on the authorization? Collin County	
b. What is the TCEQ Central Registry Customer Number assigned to this Operator?	CN 600745038
2. Permitted Site (required)	
What is the TCEQ Central Registry Regulated Entity Number assigned for this permitted site?	RN 105481071
B. REQUESTED CHANGE TO PERMITTED INFORMATION	
What information has changed or needs corrected? (Check one or more of the sections being updated and enter the new information in the corresponding section of this form.)	
<input type="checkbox"/>	Operator Legal Name Change with Texas Secretary of State (TX SOS). (Note: Permits are not transferable. If a change in entity has occurred, this NOC is not attainable.)
<input checked="" type="checkbox"/>	Address and contact information for Operator, Billing for Annual Fee or Site Mailing Address.
<input type="checkbox"/>	Site Information (Regulated Entity) (Note: Permits under a general permit are site specific. If a change in site location has occurred, this NOC is not attainable.)
<input checked="" type="checkbox"/>	Change To The Approved SWMP
1. OPERATOR LEGAL NAME CHANGE	
a. What is the NEW active Legal Name with TX SOS or on other legal document? New Legal Name:	
b. What is the TX SOS Filing Number for us to confirm this official name change? (This is only applicable to Limited Partnership or Corporations.)	
2. ADDRESS & CONTACT INFORMATION CHANGE	
a. What mailing address and/or contact information has changed? (check one or more as applicable)	
<input type="checkbox"/>	Operator for permit correspondence
<input checked="" type="checkbox"/>	Site (RE) Mailing Address and contact information
<input type="checkbox"/>	Billing address/contact for Receiving Annual Fee Statement
b. If you selected more than one, is the information to be updated the same for each selection?	
<input type="checkbox"/>	Yes – Provide the updated information in the fields below.
<input type="checkbox"/>	No – Attachment 1 of the NOC is attached to this form, to provide the different addresses.
ATTN or C/O: County Judge	
Address: 2300 Bloomdale Road	Suite No./Bldg. No./Mail Code: Suite 4192
City: McKinney	State: Texas
	Zip Code: 75071-8517
Country Mailing Information (if outside USA).	Country Code: Postal Code:
Phone No.: (972) 424-1460 Ext: 4631	Fax No.: (972) 548-4699
E-Mail: keith.self@collincountytx.gov	

3. REGULATED ENTITY (RE) SITE INFORMATION CORRECTION or UPDATE

a. Updated or Corrected description of the regulated MS4 boundaries:

b. Other update to regulated entity information. Please explain.

4. CHANGE TO THE APPROVED SWMP

Check the applicable item(s) to be changed or updated and complete the section for each item. Reference the attachment for each item.

Add the 7th Minimum Control Measure (MCM) to the approved SWMP. Complete Attachment 2 of the NOC and the following question: Are you seeking to use the 7th MCM only in the regulated (urbanized) area?
 Yes - Attach the MCM with Attachment 2 of the NOC.
 No – Attach the MCM with Attachment 2 of the NOC and indicate YES to the following certification:
I certify that the MS4 is in compliance with all of the MCMs listed in this general permit, in the MS4’s additional area where the 7th MCM will be utilized. YES
Failure to indicate YES to this certification will result in denial.

Notice to update the approved SWMP adding components, controls, or requirements to the SWMP; or replacing a BMP with an equivalent BMP.
Are the revisions to the approved SWMP attached? Yes, under attachment _____

Request to update the approved SWMP, replacing a less effective or infeasible BMP specifically identified in the SWMP with an alternate BMP.
Are the revisions to the approved SWMP attached? Yes, under attachment _____

Other requested changes to the approved SWMP requiring TCEQ approval.
Are the revisions to the approved SWMP attached? Yes, under attachment Attachment 3

C. APPLICATION CONTACT

If TCEQ needs additional information regarding this application, who should be contacted?

1. Name: Tracy Homfeld, P.E., CFM	Title: Assistant Director of Engineering	Company: Collin County
2. Phone No.: (972) 548-3733 Ext:	Fax No.: (972) 548-5555	E-Mail: thomfeld@co.collin.tx.us

**Notice of Change
Attachment 3**

Proposed Changes to Implementation Schedule and/or Measurable Goals

C-1 Review Erosion Control Section of Subdivision Regs

The County had planned to adopt the draft regulation in Year 4; however, this was not completed. The current schedule has the regulations being presented to the commissioner's court in November 2011 for a public hearing and approval.

ID-6 Promote Used Oil Recycling

The County applied for grant from the NCTCOG to fund a HHW Collection program in the County, but was denied funding for the project. Due to the lack of funding and the discontinuation of the TCEQ's Agricultural Waste Collection events, the County will not be able to conduct or promote events available to residents in unincorporated Collin County. The County will substitute an equivalent BMP in this category. The County will now promote the recycling of used oil at various businesses.

**REVIEW OF
EROSION CONTROL SECTION OF
SUBDIVISION REGULATIONS**

C-1

**RESPONSIBLE
AUTHORITY**

* **County Attorney
Engineering**

DESCRIPTION

The Phase II Final Rule requires that counties develop, implement and enforce a program to reduce pollutants in runoff from construction activities that disturb land areas of one acre or greater to the extent allowable under state and local law. The County will review existing subdivision regulations to comply with the new CGP and determine the extent to which erosion and sediment controls can be required, as well as sanctions to ensure compliance, to the extent allowable under State and local law. This may require modification of the County's plan review procedures (C-2) and site inspection procedures (C-3).

PROMOTE USED OIL RECYCLING (FORMERLY HOUSEHOLD HAZARDOUS WASTE COLLECTION)

ID-6

DESCRIPTION

The County will promote the recycling of used oil at various businesses. This BMP had previously been focused on HHW Collection; however, due to a lack of funding the County has substituted an equivalent BMP in the Illicit Discharge Minimum Control Measure. The County will develop a web page devoted to promoting the recycling of used oil.

RESPONSIBLE AUTHORITY

- X Public Service Employees
- X Businesses
- X Commercial/Industrial
- X Construction

RATIONALE FOR SELECTION

- The County applied for grant from the NCTCOG to fund a HHW Collection program in the County, but was denied funding for the project.
- Used oil collection scored second highest during the stakeholders vote for illicit discharge minimum control measure BMPs associated with the County's stormwater management program; therefore, this BMP is the logical choice to replace the HHW collection program.
