Why the Honoree is receiving a GEM Award including dates:

We use a vendor for our outsource scanning projects. We currently are working on a large project that has proven to be more challenging than others we have done recently. We had an issue with a template field that we needed the vendor to populate so that it would import correctly into Laserfiche. After several weeks that consisted of numerous attempts by the vendor to find a way to provide this information to us, Lisa came up with a great solution to this issue and within that same day we were back up and going on this project. This is only one example of the numerous times since we began working on importing projects into Laserfiche that Lisa has proven to be a valuable asset with great timesaving ideas. I feel that Lisa is very deserving of this GEM award and appreciate your considering her.
