

It's no secret that Collin County is growing!

To keep up with that growth, County Commissioners are looking at future roadways to promote mobility in the County.

Collin County has begun a route study to develop consensus on an alignment and preserve a corridor for the future Lavon Lake Bridge, a future six-lane divided thoroughfare from FM 1378 to SH 78 in southeastern Collin County. You are invited to attend our first "open house style" Public Meeting on Wednesday, October 7, 2009 to learn about the Lavon Lake Bridge Route Study, to share your thoughts and ideas, and to get your questions answered.

Your participation is welcomed and needed. Please attend this Public Meeting on:

Wednesday, October 7, 2009
City of Wylie Municipal Complex
2000 Highway 78 North, Wylie, Texas 75098
6:30 pm: Open House • 7:00 pm: Public Meeting

If you need more information, please
visit the Collin County website at:
