**Lead Document** – a document as defined by Rule 21 (a) of the Texas Rules of Civil Procedure. If filing a single document, it is the lead document.

NARA - National Archives and Records Administration.

**NIEM** – National Information Exchange Model – a partnership of the U.S. Department of Justice, the U.S. Department of Homeland Security, and the U.S. Department of Health and Human Services designed to develop, disseminate and support enterprise-wide information exchange standards and processes that can enable jurisdictions to effectively share critical information in emergency situations, as well as support the day-to-day operations of agencies throughout the nation. ## 2 SYSTEM DATA EXCHANGE STANDARDS

In accordance with Texas Administrative Code, Title 1, Part 8, Chapter 177, information exchanges that occur between the various systems (electronic filing manager, case management, document management, etc.) should occur using the current OASIS LegalXML specifications. The OASIS LegalXML specification is a subset to NIEM.

## 3 DIGITAL MEDIA STANDARDS

In addition to content and formatting promulgated by the Texas Rules of Civil Procedure, Texas Code of Criminal Procedure, and Texas Rules of Appellate Procedure, the following standards apply to digital media filed electronically or scanned from source records (filed after the effective date of these standards) by the clerk.

#### 3.1 DOCUMENTS

- A. An e-filed document must be in text-searchable PDF, using fonts specified in the PDF specification, on 8.5x11 page size, with the content appropriately rotated.
- B. When possible, the document should be generated directly from the originating software using a PDF distiller.
- C. Prior to being filed electronically, a scanned document must have a resolution of 300 DPI. Preferably, scanned documents should be made searchable using OCR technology.
- D. An e-filed document may not contain any security or feature restrictions including password protection or encryption and may not contain embedded multi-media video, audio, or programming.
- E. Documents may not contain package PDF's. PDF's should not be embedded inside of another PDF. Documents may not contain embedded fonts. Each document must be a single PDF. An appellate court may require that multiple PDF documents be combined into a single PDF document and bookmarks used to separate content appropriately. The content of the document should not depend on bookmarks.
- F. Any e-filed document filename should contain only alphanumeric characters that are part of the Latin1\_General character set. No special characters are allowed and the length of the filename should be restricted to 50 characters.
- G. Once accepted, an eFiled document remains available to the filer for download for 30 days.

# 3.2 AUDIO/VIDEO

- A. The following media players are supported (specific audio/video formats can be found on each media player's website):
  - a. VLC media player (VideoLAN Organization)

#### Technology Standards v8.0

b. Windows media player (Microsoft)

- B. When an audio/video file is natively supported by at least one media player listed in these standards, the file must not be converted into another format.
- C. If an audio/video file is not natively supported by at least one media player listed in these standards, the file must be converted to another format supported by at least one media player listed. The original, any hardware requirements, and software needed to view/hear the original must be submitted as well.
- D. If modifications are needed to enhance the native audio/video, a copy of the original must be made. The modified copy (submitted in addition to the original audio/video) must also be generated in a format supported by at least one media player listed in these standards.

## 4 EFILING FILING CONFIGURATIONS

Below are the standard filing configurations to be used in the eFiling system for district, county court at law, probate, constitutional county, and justice of the peace courts. This list of filing configurations must be accepted in each court. Courts and clerks may not add to this configuration but may eliminate codes if not needed in a particular jurisdiction.

It is important to note that these standards only apply to the electronic filing system which is a delivery system and are NOT standards for a county case management or document management system.

## 5 DOCUMENT ACCESS CONFIGURATIONS

Below are the configurations to be used in the document access system provided by OCA for district, county court at law, probate, constitutional county courts, and justice courts.

It is important to note that these standards only apply to the electronic document access system which is a delivery system and are NOT standards for a county case management or document management system.

#### 5.1 Role Definitions

The following roles are defined for the electronic document access system:

- **Role 1 Judge**. "Judge" means any sitting judge on the Supreme Court, the Court of Criminal Appeals, the intermediate Courts of Appeals, the District Courts, the County Courts, the County Courts at Law, and Justice court judges, together with associate judges and designated court staff. Municipal court judges are not included at this time.
- Role 2 Attorney(s) on the Case, Visiting Judge. Means an attorney licensed in Texas who has made an appearance in the case, or any staff associated with that firm. This term includes other attorneys, staff, paralegals, or other persons authorized by the firm administrator. "Visiting Judge" means a qualified judge assigned to a specific case or docket for a temporary period. All active users in Role 2 must validate their email every 90 days.
- **Role 3 Clerk.** "Clerk" means the custodian of the official record, including district and county clerks and deputy clerks and staff necessary for the performance of the clerk's duties.
- **Role 4 Licensed Attorney.** A Licensed Attorney is an attorney licensed by the State of Texas that does not fall into Role 1 (Judge), Role 2 (Attorney on the Case, Visiting Judge), or Role 3 (Clerk).
- **Role 5 Registered User.** A Registered User is a user that does not fall into Role 1 (Judge), Role 2 (Attorney on the Case, Visiting Judge), Role 3 (Clerk), Role 4 (Licensed Attorney) and registers with the Document Access System.

### 5.2 Role Permissions

The roles defined in Section 5.1 above are given the following permission:

Role 1 – Judges - A Judge from the Supreme Court, the Court of Criminal Appeals, the intermediate Courts of Appeals may access all case index information, and all electronically filed documents in any case in any court. District Court, County Court, County Courts at Law, and Justice court judges may access all case index information, and all electronically filed documents in any case in their jurisdiction, unless marked "Sealed". Outside of their jurisdiction, District Court, County Court, County Courts at Law, and Justice court judges may have the same level of access as Role 2 (Visiting Judge).

Role 2 –Attorney(s) on the Case, Visiting Judge – An attorney(s) on the Case may access case index information and all electronically filed documents for any case in which he or she is attorney of record or has made an appearance in the case. A Visiting Judge may access case index information, and all electronically filed documents in a case to which he or she is assigned. Cases or documents marked Sealed are not shown to Attorney(s) on the Case or Visiting Judges.

**Role 3 – Clerk.** For purposes of the Document Access System, a Clerk has the same permission level as a Judge for cases filed in the district or county. A Clerk may access case index information, and all electronically filed documents for any case in the clerk's office unless the case/document is "Sealed". Additionally, Clerks will have access to reports and other system features that will allow them to configure systems and to provide them with additional information concerning their offices.

**Role 4 – Licensed Attorney.** For civil, family, probate, and MDL cases, Licensed Attorneys can access case index information and all publicly available electronically filed documents relating to any case in which they may have an interest. For criminal cases, Licensed Attorneys can access case index information. No criminal documents are shown.

For all case types, this excludes cases and documents that are restricted by Court Order, Rule or Statute including documents containing un-redacted sensitive data ("Confidential Documents" or "Sealed").

**Role 5 – Registered Users.** Registered Users can access case index information and publicly available electronically filed documents in accordance with the Section 5.3. Additionally, Registered User access does not include cases and documents that are restricted by Court Order, Rule and Statute including unredacted documents marked as containing Sensitive Data (collectively referred to as "Confidential" or "Sealed").

#### 5.3 DOCUMENT SECURITY LEVEL

The Document Access System applies document image security at the case level (if needed) and at the document image level. For clerks that integrate to the electronic document access system, local case management security is mapped to these security definitions and controls the security of the case/document.

**Public** – cases and/or documents in the system can be seen by all roles, including the registered user role (Role 5) if allowed in Section 5.4 below (Registered User Matrix).

**Confidential** – cases and/or documents can be seen by attorneys on the case and their firm staff (Role 2 permissions), clerks, and clerk administrators in the jurisdiction (Role 3 permissions), and specific judges (Role 1 permissions).

**Sealed** – documents cannot be seen by any role. Index information can be seen unless the case is sealed.

#### 5.4 REGISTERED USER MATRIX

The permissions outlined below mirror the eFiling Case Categories and Case Types found in eFiling and apply only to Registered Users (Role 5) of the system. Other role permissions are defined in Section 5.2 above.

**Index Info?** – an X indicates that for this case type, case index information is shown. "Restyle" indicates that the case style should be changed to protect the identities of minors.

**Docs Show?** – an X indicates that document images are available for this case type.

**Delay** – indicates the number of days delay before the case information and/or documents may be accessed by registered users. The number of days is based on the date the document is accepted by the clerk.
