

Statement on the Texas Secretary of State's Decertification of ES&S ExpressPoll

On December 23, 2024, the Texas Secretary of State's Election Division decertified the ES&S ExpressPoll electronic pollbook due to performance issues observed during the November 2024 General Election. While this decision affects some counties across Texas, we want to assure Collin County voters that this decertification does not impact our election processes.

Collin County utilizes ES&S as our tabulation vendor; however, we do not use ES&S ExpressPoll for voter check-in. Instead, we rely on Votec (VEMACS and VoteSafe) as our voter registration and pollbook solution. The Texas Secretary of State's action applies solely to ES&S's pollbook system and does not affect tabulation equipment or other election operations.

Our commitment remains to conduct secure, efficient, and transparent elections. If you have any questions regarding this update, please contact the Collin County Elections Office.
