RE: ESD Approval from the City of Fate

Dear Mr. Kim,

On behalf of the City Council of the City of Fate, I am writing to formally communicate the City's support for the creation of an Emergency Services District (ESD) within the portion of Collin County that lies within the City's extraterritorial jurisdiction (ETJ).

At its regular meeting on April 7, 2025, the Fate City Council unanimously approved this action in response to the notification received from your office. The minutes of the meeting are enclosed.

We recognize that the formation of an ESD would provide a stable and dedicated funding mechanism for fire protection services. Currently, the area in question receives fire protection services from the Nevada Volunteer Fire Department or the Royse City Fire Department, with mutual aid support from the City of Fate as needed.

The City of Fate is open to future discussions regarding potential fire service contracts with the ESD, should the district be established. Likewise, should the City regain annexation authority or enter into future development agreements in this area, we would look forward to working collaboratively with the ESD to align services and tax structures appropriately.

Thank you for your efforts to support emergency services in this portion of the county.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Kovacs".
