Citizens of Collin County  
Honorable Board of District Judges  
Honorable Commissioner's Court  
Collin County, Texas

The Annual Comprehensive Financial Report of Collin County, Texas, for the fiscal year ended September 30, 2025, is submitted herewith in accordance with Chapter 114.025 of the Local Government Code and has been prepared by the Auditor's Office.

This report consists of management's representations concerning the finances of Collin County, Texas. Management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, Collin County management has established a comprehensive internal control framework designed both to protect governmental assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with Generally Accepted Accounting Principles ("GAAP"). Because the cost of internal controls should not outweigh their benefits, Collin County's comprehensive framework has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge, this financial report is complete and reliable in all material respects.

Pattillo, Brown and Hill, L.L.P., a firm of licensed certified public accountants, has audited Collin County's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended September 30, 2025, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial presentation. Based on the audit, the independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion on Collin County's financial statements for the fiscal year ended September 30, 2025, and that they are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

Pattillo, Brown and Hill, L.L.P. was also engaged to perform an audit of the County's federal and state awards that is designed to meet the audit requirements of: Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the State of Texas *Grant Management Standards*. The "Single Audit" report on federal and state awards is issued separately.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Collin County's MD&A can be found immediately following the report of the independent auditors.

## Collin County Profile

Located in North Central Texas, Collin County was incorporated in 1846 and both the County and the County Seat were named after the pioneer Collin McKinney. In the 1970's the growth of the Dallas/Fort Worth Metroplex area began expanding northward into the Southwestern region of the County causing a transformation from rural to suburban. Today a large portion of the County is considered to be part of the Dallas - Fort Worth Metroplex even though parts of the County still remain rural. Since the 1970's the County has experienced rapid growth that rivals any area in the entire United States. The 2025 estimated population of 1,254,658 is up 4.96% over the 2024 population of 1,195,359, 17.87% over the 2020 census population of 1,064,465, and 60.37% over the 2010 census population of 782,341. The County has a land area of 886 square miles. Collin County ranks 6th in population of the 254 counties in the State of Texas.

The County operates as specified under the Constitution of the State of Texas and Vernon's Texas Code Annotated, which provide for a Commissioners Court consisting of the County Judge, elected at large, and four Commissioners, one for each of four geographical precincts. The County Judge is elected for a term of four years and the Commissioners for four-year staggered terms.

Collin County provides a full range of services: judicial including three levels of courts; law enforcement; jail facilities; maintaining land and vital records; construction and maintenance of roads, bridges, and other infrastructure; recreational activities and facilities; and indigent health assistance.

The annual budget serves as the foundation for Collin County's financial planning and control. All departments of the County are required to submit requests for appropriations to the County Budget Officer. The Budget Officer uses these requests as the starting point for developing a proposed budget. The County Auditor prepares an estimate of available resources for the upcoming fiscal year. The proposed budget and a recommended budget prepared by the Budget Officer are submitted to Commissioners Court for their consideration. Commissioners Court then holds budget work sessions to hear specific requests that were not included in the Budget Officer's recommended budget. The Court is required to publish specific information, notices, and hold public hearings as defined by state statute. Once all these requirements are met, the Court is required to adopt the budget and the tax rate by September 1 or as soon thereafter as is practical.

The appropriated budget is adopted for each annually budgeted fund by the primary categories of salaries and benefits, training and travel, maintenance and operating, and capital outlay. The legal level of budgetary control (the level at which management may not overspend without approval of Commissioners Court) is established at the department level within each fund. Within each fund, appropriations are controlled by the primary expenditure categories described above. Total appropriations may not be exceeded at the fund level without formal action by Commissioners Court. Transfers between expenditure categories or increases in total fund appropriations require action by Commissioners Court in accordance with State statute and County policy. Budget to actual comparisons are provided in this report for the General Fund and all funds for which the Commissioners Court adopts an annual budget. The County prepares its annual budgets using the same modified accrual basis used for governmental fund financial statements.

Annual budgets are adopted for all governmental funds with the exception of capital project funds and the following special revenue funds: Grants Fund, LEOSE Fund, Tax Assessor/Collector Motor Vehicle Tax Fund, District Attorney Service Fee Fund, Juvenile Case Manager Fund, and District Attorney Apportionment Fund. These funds are not subject to the County's annual appropriation process because expenditures are limited by statute, grantor requirements, or are under the administrative authority of elected officials responsible for those funds.

Capital project fund budgets are adopted by project on a project-life basis at the time debt is issued and are amended as necessary. The budget authority for these projects is carried forward from year to year until the project is completed or the funding is exhausted. Grant fund budgets are established at the grantor level and are adopted by Commissioners Court in a ministerial capacity. All governmental fund annual appropriations lapse at year end.

## Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Collin County operates.

**Local economy:** Collin County continues to experience vibrant economic activity and growth. Tax appraisals in the County increased 7.92% as of January 1, 2025, from the prior calendar year. The population increased by 4.96% in 2025 and 3.16% in 2024. Due to major corporate construction projects recently completed, planned and currently underway, the growth is expected to continue to increase rapidly in upcoming years. Some of the major business activity contributing to the growth of the local economy includes KFC (Yum! Brands) and Graze Inc. relocating their headquarters to Plano, along with a recent announcement that AT&T will move its \$1.35 billion global headquarters to Plano, with expectations that the campus will house around 10,000 employees. Furthermore, Frisco is now headquarters to PGA of America, Ruiz Foods, Public Storage, Dallas Cowboys and Dallas Stars. Universal Destinations & Experiences officially introduces Universal Kids – Resort in Frisco will officially open in May 2026. The Sunset Amphitheater, a 20,000 capacity, covered open-air music venue is scheduled to open in September 2027 and will be located in McKinney. Cannon Beach, a mixed-use project in McKinney scheduled to open during 2027, will feature a waterpark, resort style hotel, dining, and business spaces. The AT&T Byron Nelson Golf Tournament announced they will be returning for a sixth year, part of a multi-year agreement with McKinney TPC Craig Ranch. The unemployment rate increased to 4.0% as of September 30, 2025, from 3.3% on the same date in 2024. The unemployment rate remains below the national average rate of 4.4% as of September 30, 2025. Major industries with headquarters or divisions located within the county include financial, petroleum research, electronics, retail, hotel, food, professional sports, and insurance institutions. Property tax revenues in 2025 increased by 10.38% from the prior year despite the same tax rate of \$0.14934 per \$100 of valuation. Real property values are expected to continue to increase at a steady pace in 2026 and well beyond. This continued growth directly informs the County's long-term financial planning and capital investment strategies.

**Long-term financial planning:** The Commissioners Court continues to advance a strategic approach to infrastructure development to support sustained economic growth and long-term community needs. Ongoing evaluation of transportation and facility requirements ensures that Collin County remains an attractive location for both industry and residents. In November 2023, voters approved a \$683 million bond program to fund future facility, transportation, and park projects, including \$280.9 million for facilities, \$380 million for transportation, and \$22.45 million for parks. During fiscal year 2025, the County issued \$220,280,000 in bonds to support construction and improvement of detention, judicial, medical examiner, and animal shelter facilities; the development and maintenance of non-tolled roads and bridges, including land and right-of-way acquisition; park and open space improvements; and the refunding of outstanding debt. The County also issued \$7,920,000 in tax notes to acquire equipment, renovate facilities, and implement asset management systems. These investments reflect the County's commitment to maintaining long-term financial stability while supporting continued growth and infrastructure needs. Progress on the Outer Loop transportation project continues, with multiple segments completed and others actively under development. During the year, the County enhanced the accuracy and transparency of its financial reporting by re-evaluating the classification of the Collin County Toll Road Authority and reclassifying its activities to governmental activities to better reflect the underlying economic substance of the project. The County remains committed to continuously improving its financial reporting, internal processes, and long-term financial planning to ensure transparency, accountability, and effective stewardship of public resources.

**Tax Abatements:** Collin County enters into economic development agreements to promote development and redevelopment with the County, stimulate economic improvement and provide commercial activity, and strengthen the property tax base and economic vitality of Collin County. Tax abatements assist in reducing unemployment which in turn enables employees to utilize income to obtain housing and buy goods and services within Collin County.

The County's economic development agreements are authorized under Chapter 381 of the Texas Local Government Code and Chapter 312 (Property Redevelopment and Tax Abatement) of the Texas Tax Code. Under these Codes, the County may award tax abatements up to 100 percent of a business property for the purpose of attracting or retaining businesses within their jurisdiction. The abatements may be awarded to any business located within or committing to relocate to Collin County.

## Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded Collin County a Certificate of Achievement for Excellence in Financial Reporting for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended September 30, 2024. The Certificate of Achievement is the highest form of recognition in governmental accounting and financial reporting and is awarded only to governments whose annual comprehensive financial reports demonstrate

a constructive "spirit of full disclosure" and clearly communicate their financial story while meeting or exceeding the program's rigorous standards.

The Certificate of Achievement is valid for one year only. We believe this report continues to meet the Certificate of Achievement Program's requirements, and it is being submitted to the GFOA for consideration for this award.

I would like to express my appreciation to the District Judges and the Commissioners Court for their continued leadership and commitment to sound financial management and transparency. I also wish to recognize the professionalism and dedication of the staff of the County Auditor's Office, whose efforts made the timely preparation of this report possible. In addition, I would like to thank the County's departments and elected officials for their cooperation in providing the financial information necessary to prepare this report, as well as the County's independent auditors, Pattillo, Brown & Hill, L.L.P., for their professional services and assistance.

Respectfully submitted,

Robert D. Cone, County Auditor

ANNUAL COMPREHENSIVE FINANCIAL REPORT

## INDEPENDENT AUDITOR'S REPORT

Honorable County Judge and Members of the  
Commissioners' Court of Collin County  
McKinney, Texas

### Report on the Audit of the Financial Statements

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Collin County, Texas ("the County") as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County as of September 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Emphasis of Matter – Change in Accounting Principle**

As discussed in Note I to the basic financial statements, during the year ended September 30, 2025, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. Our opinions are not modified with respect to this matter.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### OFFICE LOCATIONS

TEXAS | Waco | Temple | Hillsboro | Houston  
NEW MEXICO | Albuquerque

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement due date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension and OPEB information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the annual comprehensive financial report (ACFR). The other information comprises the introductory section and statistical section, but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2026, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

# MANAGEMENT DISCUSSION AND ANALYSIS

---

## Management's Discussion and Analysis

As management of Collin County, Texas (the County) we offer readers of the County's Annual Comprehensive Financial Report this narrative overview and analysis of the financial activities of Collin County for the fiscal year ended September 30, 2025. The financial statements, footnotes, and required supplementary information should be reviewed in conjunction with this discussion and analysis.

## Financial Highlights

### Highlights for Government-Wide Financial Statements

The government-wide financial statements report information about the County as a whole using the economic resources measurement focus and accrual basis of accounting.

- County assets and deferred outflows exceeded liabilities and deferred inflows (net position) by \$1,341 million on a government-wide basis at September 30, 2025, an increase of approximately \$193 million from 2024.
- For 2025, revenues of the County amounted to \$1,084 million. The main revenue sources were property (ad valorem) and mixed beverage taxes (\$368 million), charges for services (\$73 million), and operating grants (\$405 million). These three revenue sources accounted for 33.9%, 6.7% and 37.4%, respectively, or 78% of total government wide activity revenues.
- Total expenses were \$891 million. The functional areas with the largest expense amounts were public safety (\$117 million), general administration (\$55 million), public transportation (\$273 million), and health and welfare (\$302 million).
- Net capital assets were \$797 million as of September 30, 2025, which was an increase of \$131 million from the prior year.
- During fiscal year 2025, the County re-evaluated the classification of the Collin County Toll Road Authority (CCTRA), which had previously been reported as an enterprise fund within business-type activities. Management determined that the activity did not meet the criteria for enterprise fund reporting, as it would not recover costs through user fees and was not self-sustaining in nature. Accordingly, the CCTRA was reclassified and its assets, liabilities, and activities are now reported within governmental activities and the appropriate governmental funds. This change reduced business-type activity and improved the alignment of the County's financial reporting with the underlying economic substance of the activity. This change represents a reclassification of reporting and did not result in a restatement of prior year financial statements.

### Highlights for Fund Financial Statements

The fund financial statements detail information about the County's most significant funds using the current financial resources measurement focus and modified accrual basis of accounting.

- The County's governmental funds reported a current operational increase in fund balances of \$44 million during fiscal year 2025, as compared to an increase of \$227 million during fiscal year 2024. The 2025 increase was primarily due to debt issuance of \$228 million.
- The General Fund reported a fund balance of \$339.3 million as of September 30, 2025, a decrease of \$44 million from September 30, 2024. General Fund revenues of \$321 million increased by \$23 million or 8%, and General Fund expenditures of \$310 million increased by about \$43 million or 16% from 2024. As a result, General Fund revenues exceeded expenditures by \$11 million before considering net additional financing uses of (\$56 million).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$277 million, or approximately 89% of the total General Fund expenditures.

### General Financial Highlights

- The County, as part of its transportation and parks plan, provides financing to its cities to assist in road construction and parks to meet continuing population growth. In fiscal year 2025, the County's Deferred Contributions nets \$30

million for the completion of projects (primarily roads) for other governmental entities. Although the County will not maintain or own those roads, it continues to be responsible for paying the debt incurred for construction.

- In 2025, the County issued Limited Tax Permanent Improvement and Refunding Bonds in the amount of \$220,280,000. This was approved by the voters in the 2023 bond election. During 2025, Collin County's Commissioner Court also authorized a Tax Notes issuance in the amount of \$7,920,000.

## Overview of the Financial Statements

Management's Discussion and Analysis is presented as an introduction to the County's basic financial statements. The basic financial statements include the government-wide financial statements, the fund financial statements, and the accompanying notes. Also included is supplementary information, which is required in addition to the basic financial statements.

### Government-wide Financial Statements

*Government-wide financial statements* are designed to provide a broad overview of County finances in a manner similar to a private-sector business, using full-accrual accounting for all transactions and activities.

The *statement of net position* provides information on all County assets and deferred outflows minus liabilities and deferred inflows; the difference between the two is reported as net position. Over time, increases or decreases in net position may serve as an indicator of whether the financial position of the County is improving or declining.

The *statement of activities* presents information showing how the net position of the County changed during the fiscal year presented herein. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Under this presentation, using full accrual accounting, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, paid time off earned but not used, etc.).

The government-wide financial statements distinguish functions of the County that are primarily supported by taxes. If appropriate, the statements would also present revenues from governmental activities that are most like a private enterprise. That is, the intent of the activity is to recover all or a significant portion of its costs of operations through the charging of user fees and activity charges. Governmental activities of the County, supported primarily by taxes, include general government, judicial, public safety, public works, health and welfare, culture and recreation, and debt service.

The County created its first enterprise fund in 2009 to record the activity of the Collin County Toll Road Authority. The County Commissioners Court is also the Trustee for the Collin County Toll Road Authority. The Toll Road Authority was established to build and maintain an Outer Loop tolled roadway in the northern and eastern portions of the County. During fiscal year 2025, the County re-evaluated this classification and determined that the CCTRA does not meet the criteria for enterprise fund reporting. Accordingly, its assets, liabilities, and activities have been reclassified and are now reported within governmental activities and appropriate governmental funds. This change aligns the County's financial reporting with the underlying financing structure of the Outer Loop project, which is supported by governmental resources rather than user fees.

The County operates an animal shelter that works with local cities and unincorporated areas of the County to handle the disposition of unwanted and abandoned animals, which is accounted for in the Animal Safety Fund. Each participating city, as well as the County, pays a pro rata share of the operating expenses and construction costs. In 2015 the Animal Safety Fund was reported as an enterprise fund for the first time.

Government-wide financial statements include not only the activities of the County itself (known as the primary government), but also those of legally separate blended-component units: the Collin County Health Care Foundation and the Collin County Housing Finance Corporation. The County Commissioners act as the Board of Trustees for component units whose activities are blended with those of the primary government because it functions as part of county government.

### Fund Financial Statements

A *fund* is a grouping of related accounts used to control and account for resources segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to both ensure and demonstrate

compliance with legal requirements. All funds of the County can be divided into one of three categories: governmental funds, proprietary funds, and fiduciary funds.

### Governmental Funds

*Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. The nature of such inflows and outflows may be useful in evaluating near-term financial requirements.

Because the focus of governmental funds is more narrow than that of the government-wide financial statements, the reader may find it useful in comparing information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, one may come to better understand the differences in the long-term financial activity of the County. Such comparison may also be used to distinguish the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances include reconciliations useful in comparing the *governmental funds* and *government-wide activities*.

In February 2009, the Governmental Accounting Standards Board (GASB) issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which is effective for periods that begin after June 15, 2011. The objective of GASB 54 is to enhance the usefulness of fund balance information by 1) clarifying existing governmental fund type definitions, and 2) providing clarity to fund balance classifications that can be more consistently applied. Collin County implemented GASB 54 reporting as of September 30, 2011, in accordance with GASB requirements.

GASB 54 establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The classifications are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term "proceeds of specific revenue sources" establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. Restricted or committed specific revenue sources should comprise a *substantial portion of the fund's resources*.

GASB 54 requires fund balance to be reported by purpose or function of restriction, using one of the following five categories:

- **Non-spendable** - Generally means the asset is not expected to be converted to cash, such as inventories; the asset can also be related to monies legally or contractually required to be maintained intact, such as a debt service reserve fund.
- **Restricted** - Resources whose use is constrained by either externally imposed (i.e., creditors, contributors, grantors, or laws of other governments), or imposed by law through constitutional provisions of enabling legislation, such as authorization to assess, levy, charge, or otherwise mandate payment of resources. This includes a *legally enforceable* requirement that resources be used only for the specific purpose.
- **Committed** - Constraints imposed by formal action of the Collin County Commissioners Court to set aside, by court order, a commitment of specific use of resources. Constraints can only be removed or changed by taking the same type of action employed to commit those amounts.
- **Assigned** - An amount intended to be used for a specific purpose, but the amount is neither restricted nor committed. Intent may be expressed by the Commissioners Court or by an official or group to which the governing body has delegated the authority to assign amounts. Assigned fund balance includes all remaining amounts reported in governmental funds, other than the General Fund, that are not classified as non-spendable, restricted, or committed. Collin County has no assigned fund balance in 2025.
- **Unassigned** - Residual amount for the General Fund; it is the fund balance that has not been restricted, committed, or assigned. The General Fund is the only fund that reports a positive unassigned fund balance amount. The only classification that can report a negative fund balance is the unassigned category.

The County maintains individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the following major funds:

- General Fund
- General Road and Bridge Special Revenue Fund
- Health Care Foundation Special Revenue Fund
- Local Provider Participation Fund
- Grants Fund
- Debt Service Fund
- 2018 Permanent Improvement Capital Projects Fund
- 2023 Permanent Improvement Capital Projects Fund

Each of these funds is classified as a major fund for 2025. Financial results from the other governmental funds (non-major funds) are combined into a single, aggregated presentation and included in the total. Individual fund data for each of the non-major governmental funds is provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for most of its governmental funds. A budgetary comparison statement is provided for county governmental funds where a budget is adopted to demonstrate compliance with the approved budget. (Exceptions are funds where either a project life budget is adopted in Capital Projects Funds or funds where the Commissioners Court does not have the authority to adopt a budget such as grant funds). Budgetary comparison statements for major governmental funds are presented as required for additional supplementary information in the basic financial statements. Budgetary comparison statements for all governmental funds are included in the accompanying information to the fund financial statements.

### Proprietary Funds

The County reports seven proprietary-type funds. The Animal Safety Fund is the County's only enterprise fund. The remaining six funds are reported as internal service funds (see list below). Internal service funds are used to accumulate and allocate costs internally among various county functions. The internal service funds provide benefits to the County and to various governmental functions they support, which is why they have been included within governmental activities in the government-wide financial statements. The County uses internal service funds to account for the following activities:

- County Insurance
- Workers Compensation Insurance
- Flexible Benefits
- Unemployment Assessment
- Employee Insurance
- Employee Paid Benefits

The proprietary funds are combined into a single, aggregated presentation for both enterprise funds and internal service funds in the proprietary fund financial statements. Proprietary funds are accounted for on the full-accrual method of accounting. Individual fund data for the proprietary funds is provided in the combining and individual fund statements and schedules.

### Fiduciary Funds

County Custodial Funds consist of several fiduciary funds. Fiduciary funds are the separate accounts and transactions related to money received that is collected for and remitted to another entity. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the County's own programs.

**Notes to Financial Statements**

The Notes to the Financial Statements provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes disclose other pertinent information that, when taken in whole with the financial statements, provide a more detailed picture of the state of the finances of the County.

**Other Information**

In addition to the basic financial statements and accompanying notes to those financial statements, certain required supplementary information schedules are also presented in this report with additional information regarding the results of the County’s financial activities.

The combining statements and individual fund schedules are presented immediately following the required supplementary information.

Unaudited statistical information is provided for trend and historical analysis.

- Net position serves as a useful indicator of financial position. Assets and deferred outflow of resources exceeded liabilities and deferred inflow of resources by \$1,341 million as of September 30, 2025, and by \$1,148 million as of September 30, 2024, a net increase of \$193 million.
- Net investment in capital assets (e.g., land, buildings, infrastructure, machinery and equipment, etc., net of related debt used to acquire the assets) accounts for 32% of Net Position. Although our investment in capital assets is reported net of related debt, the reader should note that resources needed to repay this debt must be provided from other sources. Currently all future debt service payments are required to be paid by future property tax collections.
- Restricted net position (17% of total net position) represents resources subject to external restrictions. Of these restricted net assets, 35% is restricted for county roads and bridges, 9% is for administration and elections, 9% is restricted for the judicial system, 3% is to repay long-term debt, and 41% is restricted for the net pension asset.
- The remaining portion of the County’s net position (51%) is unrestricted and may be used to meet ongoing obligations.
- During fiscal year 2025 the County re-evaluated the classification of the Collin County Toll Road Authority (CCTRA), which had previously been reported as an enterprise fund within business-type activities. Management determined that the activity did not meet the criteria for enterprise fund reporting, as it would not recover costs through user fees and was not self-sustaining in nature. Accordingly, the CCTRA was reclassified and its assets, liabilities, and activities are now reported within governmental activities and the appropriate governmental funds. This change reduced business-type activity and improved the alignment of the County’s financial reporting with the underlying economic substance of the activity. This change represents a reclassification of reporting and did not result in restatement of prior year financial statements.

Reflected below is a comparison of Collin County revenues by source:

### Government-wide Revenue Sources

#### Revenues

Overall, government-wide revenues increased in 2025 over 2024 by \$407 million, or 60%, due primarily to an increase in operating grants and contributions by \$204 million.

The American Rescue Plan Act (ARPA) was established in 2021 to provide relief from the COVID-19 pandemic. ARPA federal grant proceeds allocated during 2025 were \$95 million, an increase of \$56 million, or 246% from \$39 million recorded in 2024.

The Local Provider Participation Fund (LPPF) is used to collect mandatory payments from local hospitals to fund the nonfederal share of Medicaid supplemental program payments authorized under the state Medicaid plan. The LPPF authorizes the county to administer a health care provider participation program to provide additional compensation to local hospitals located within the county. The LPPF received \$285 million in 2025 compared to \$145 million received in the prior year, an increase of \$140 million or 51%.

Capital grants and contributions increased from almost \$20 million in 2024 to over \$186 million in 2025, an increase of \$166 million or 940% due primarily to the reclassification of the Collin County Toll Road Authority (CCTRA)/Outer Loop project.

Taxes increased by \$31 million due to continued rise in property valuations driven by increased population and economic factors.

Gain on sale of capital assets for Business-Type Activities in the amount of \$17 million in 2025 is due to the reclassification of the CCTRA/Outer Loop project.

A summary of the amounts and a more detailed explanation is provided in the following table:

**Expenses**

Expenses increased in all functional areas with the exception of Culture and Recreation, which reflects a decrease of \$182 thousand. While the overall increase for total expenses is \$389 million across all functional areas, the most significant increases were reflected in Public transportation and Health and welfare.

Public transportation increased by \$195 million or 251% due primarily to the reclassification of the Collin County Toll Road Authority (CCTRA)/Outer Loop project.

Health and welfare expenses increased by \$158 million, due primarily to ARPA projects, which increased by \$150 million, and the Local Provider Participation Fund, which increased by \$63 million. Additionally, Infirmary services increased by \$6 million as a result of increased inmates, and court appointed attorneys increased by \$2 million due a higher demand in services.

Summarized below are details of government-wide activities of the County for 2025 and 2024.

### Governmental Activities Revenues by Source

### Governmental Activities Expenses by Functional Area

**Financial Analysis of the County’s Funds**

The County operates using a fund accounting system to ensure segregation of funds as needed or required. The focus of governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. This data may be particularly useful in assessing the County’s requirements for additional financing. Unassigned fund balance serves as an indicator of the County’s net resources available for spending at the end of the fiscal year.

As of the end of fiscal year 2025, the County’s governmental funds reported a combined ending fund balance of \$1.5 billion, which was an increase of \$44 million or 3%. \$277 million is classified as unassigned and is available to meet current needs. A positive unassigned fund balance can only exist in the General Fund since all other funds by definition are restricted or committed.

**Governmental Funds - Total Fund Balance  
as of September 30, 2025  
(in thousands)**

Fund Balance:				<u>Major Purposes for Classification</u>
Nonspendable	\$ 5,347	0.36%		Inventories, receivables from other funds and organizations
Restricted	1,177,358	78.39%		Bond proceeds, debt service tax collections, other legal or contractual restrictions
Committed	42,037	2.80%		Road projects, funds set aside for unanticipated cost increases
Unassigned	<u>277,247</u>	<u>18.46%</u>		General Fund
Total Fund Balance	<u>\$ 1,501,989</u>	<u>100.00%</u>		

**Changes in Fund Balance – Major Funds**

In 2025, the County is presenting eight major funds in the governmental fund financial statements.

Funds are required to be reported as major funds when revenues, expenditures/expenses, assets, or liabilities (excluding extraordinary items) are at least 10% of corresponding totals for all governmental or enterprise funds and at least 5% of the aggregate amount for all governmental and enterprise funds. Any other fund may be reported as a major fund if County officials believe that fund is particularly important to financial statement users. The Health Care Foundation Special Revenue Fund does not meet the criteria for a major fund but management chose to report it as a major fund because it is the primary fund where public health activity is reported in the County.

The Animal Safety Fund is an enterprise fund and is reported within the proprietary funds section.

**General Fund**

The General Fund is the chief operating fund of the County. The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. Major revenue sources include property taxes, fines, fees, intergovernmental revenues and investment income.

At the end of 2025, the unassigned fund balance of the General Fund was \$277 million. The total fund balance in the General Fund was \$339 million, a decrease of \$44 million or 12% from 2024.

Key factors in the change in fund balance for the General Fund are as follows:

- Property tax revenues increased by \$25 million from the previous year due to increase property values, while the County’s property tax rate remained consistent with the prior year at \$0.149343 per \$100 valuation. The certified tax roll increased to 10.4% or \$23.1 billion as compared to the \$27.4 billion increase experienced in 2024.
- Interest and investment earnings also saw a large decrease of about \$4 million due to falling interest rates driven primarily by the Federal Reserve lowering rates from 4.75%-5.00% to a range of 3.5%-3.75%.
- Expenditures increased by \$43 million or 16% during the year. The largest increase was due to public safety increase. The Sheriff’s Office and Jail Operations saw salary increases. Inmate housing costs also increased substantially.

- Transfers out of the General Fund, 2018 Permanent Improvement Fund, and Nonmajor Funds totaling \$169,784,857 were transferred to the Collin County Toll Road Authority (CCTRA) Fund in order to reclassify the fund as part of governmental funds.

### **General Road and Bridge Fund**

The General Road and Bridge Fund is the primary funding for maintenance of county roads. This Fund is used to account for the activities affecting County-owned roads, including right-of-way acquisitions, construction, operations, and maintenance. Expenditures for the cost of road projects shared with the State are also included.

At the end of 2025, the fund balance of the General Road and Bridge Fund was \$85 million, a decrease of \$1 million or 1% from the prior year. General Road and Bridge Fund revenues include licenses and permits, fees and charges for services, fines and forfeitures, other local government funds, interest, and miscellaneous. The County was able to increase revenues while maintaining consistent expenditures over the previous year.

### **Health Care Foundation Special Revenue Fund**

The Health Care Foundation Fund is used to account for receipt of investment earnings and authorized health care expenditures as administered by the Collin County Health Care Foundation. The rental revenue is a steady source of income that provided 22% of the expenditures for the Health Care Foundation Fund in 2025 but not enough to cover ongoing expenditures. The County transferred \$2.0 million to cover the deficiency of revenues under expenditures.

### **Local Provider Participation Special Revenue Fund**

Collin County authorized the Local Provider Participation Fund during fiscal year 2024. Mandatory payments from healthcare providers in the area are collected to fund the nonfederal share of Medicaid supplemental program payments authorized under the state Medicaid plan. Collin County received \$285 million in payments and disbursed \$256 million out to the state.

### **Grants Fund**

The Grants Fund is used to account for receipt of grant revenues and expenditures from Federal and State entities or other sources. Total grant revenues increased in 2025 by \$59 million. The increase of grant revenues is due to an increase in funding to the county by the federal and state agencies in response to the COVID-19 pandemic crisis. Funds for this grant were approved for capital outlay expenditures in accordance with grant guidelines.

### **Debt Service Fund**

The Debt Service Fund ended the year with a fund balance of \$4.9 million, a decrease from the prior year. Revenues and expenditures both increased from the prior year. The County partially refunded Limited Tax Refunding and Improvement Bond, Series 2014, Limited Tax Refunding and Improvement Bond, Series 2015, and Unlimited Tax Road and Refunding Bond, Series 2015 as part of the Limited Tax Permanent Improvement and Refunding Bonds, Series 2025. The new bonds carry an interest rate of 5% and will mature in fiscal year 2045. New debt also included Tax Notes, Series 2025 with an interest rate of 5% and will mature in fiscal year 2027.

### **2018 Permanent Improvement Fund**

The 2018 Permanent Improvement Fund is used to account for bond projects authorized by voters on November 6, 2018. Total authorized was \$750 million, which accounts for the following: Road & Bridge projects (\$740 million) and Parks & Open Space projects (\$10 million).

### **2023 Permanent Improvement Fund**

The 2023 Permanent Improvement Fund is used to account for bond projects authorized by voters on November 7, 2023. Total authorized was \$683.4 million which accounts for the following: Permanent Improvements for facilities (\$281 million), Road & Bridget projects (\$380 million), and Parks & Open Space projects (\$22 million).

## Budgetary Highlights

The legal level of budgetary control for the General Fund is by four major categories in each department:

- Salaries and benefits
- Training and travel
- Maintenance and operating
- Capital outlay

The final amended budget for the General Fund expenditure appropriation was \$366,417,242 or \$56,913,663 more than the original budget of \$309,503,579 (excluding transfers). Actual expenditures for 2025 were \$310 million or \$56.5 million (15%) less than the final amended budget. Departmental expenditure variances were less than budgeted in many departments. The difference is primarily due to a decrease in expenditures in general administration (\$16.9 million), public safety (\$4.7 million) and capital outlay (\$27.0 million), which is presented separately from functional activities.

## Capital Assets

The County's total in capital assets for governmental activities (including business-type activities), net of accumulated depreciation at September 30, 2025, was \$797 million, an increase of \$131 million from 2024.

Details by type of activity are summarized below:

Major changes in capital assets for 2025 are as follows:

- Land decreased by \$8 million due to right-of-way acquisitions for the US380 sold to TXDOT.
- Construction in Progress increased by a net of \$138 million due to building and transportation projects in progress.
- Accumulated depreciation increased by \$27 million mostly due to Infrastructure depreciation of \$20 million from 2025.

More detailed activity about capital assets can be found in the Notes to the Financial Statements section III *(f) Capital Assets*.

## Long-term Debt

As of September 30, 2025, the County had \$983 million in outstanding bonded debt, an increase of \$141 million or 17%. During 2025, the County issued \$220,280,000 in Limited Tax Permanent Improvement and Refunding bonds and \$7,920,000 in Tax Notes. Principal was paid down by \$65,620,000.

More detailed information about long-term debt activity can be found in the Notes to the Financial Statements section III *(g) Long-term Debt and (k) General Obligation Bonds*.

## Economic Factors and Next Year's Budget

Collin County relies primarily on property taxes for operations. Over the past few decades, the County has experienced consistent large increases in taxable valuations. The certified tax roll is up 7.2% or \$17.7 billion as compared to the \$23.1 billion increase experienced in 2025. The 2026 new construction values grew at 3.6%, while the existing values rose by 3.6% as well this year. The average taxable value of a residence homestead last year was \$584,050. Based on last year's tax rate of \$0.149343 per \$100 taxable value (and the 5% homestead exemption), the amount of taxes imposed last year on the average home was \$681. The average taxable value of a residence homestead is \$599,917.

The property tax rate for fiscal year 2026 was maintained at \$0.149343 per \$100 of valuation from the prior year. This budget will raise more property tax revenues than last year's budget by \$20,093,885 or 6.14%, and of that amount, \$13,209,158 is tax revenue to be raised from new property added to the tax roll this year. Property owners continue to benefit from one of the lowest county property tax rates in the state. The expected growth of the County and related increases in property values should be sufficient to fund County operations for the time being. Collin County is in excellent fiscal condition to endure future revenue shortfalls, should they occur; however, significant revenue shortfalls are unlikely due to the vibrant economic activity occurring within the County. Future fiscal pressures from rising health care costs along with changing health care laws, demand for constituent services, and costs of road construction could place pressure on the low tax rate in future years.

The County is experiencing rapidly increasing population growth as it has been accustomed to in the past few decades. Population estimates for the County in 2025 was 1.25 million and 1.19 million in 2024. The County continues to aggressively invest in road and bridge projects across the County to meet the transportation needs of its residents and businesses to make the County an attractive place to live, work, and do business. The growth rate is expected to increase over the next couple of years due to a very active business climate. The rate and absolute numbers of growth continue to provide challenges in keeping up with roads and other infrastructure needs.

The operating expenditures budgeted for the General Fund, Road and Bridge Fund and Permanent Improvement Funds increased from \$348 million in 2025 to \$393 million in 2026 which is an increase of 13%.

Significant events expected to have an impact in 2026 and beyond are as follows:

Health care for indigent residents of Collin County is a major economic consideration for the County. Grants to community agencies that began in 2008 and continued through 2026 have helped the county to provide preventative and minor medical care in cities where the indigent population is located. Increased medical care costs contribute to the increased demands on County resources to provide the same level of service offered in prior years. The Health Care Task Force continues to work with local providers and the County to ensure appropriate recommendations and decisions concerning the future availability of service and care. Medicaid 1115 plans are in place with the County as the anchor county. The County has eliminated all long-term unfunded liabilities for employee retirement and health care benefits by changing policies and using excess reserves to pay down the liabilities. As such, the County is in excellent shape to endure a future economic downturn. The County will continue to closely monitor its expenditures to ensure that taxpayer dollars are spent wisely and in accordance with sound fiscal management policies.

### **For Information Requests**

**Reconciliation of the Statement of Revenues, Expenditures,  
and Changes in Fund Balances of the Governmental Funds to the  
Statement of Activities  
For the Fiscal Year Ended September 30, 2025**

Net change in fund balances – governmental funds \$ 43,599,746

Amounts reported for governmental activities in the statement of activities are different because:

Capital asset purchases are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated lives as depreciation expense. In the current period, these amounts are:

Capital assets additions	\$ 408,400,347	
Capital assets decreases	(72,431,683)	
Depreciation expense for all capital assets	(40,589,844)	
Total change in capital assets activity		\$ 295,378,820

Bond proceeds provide current financial resources. However, in the statement of activities, some items do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These activities consist of:

Debt issuance and refunding increases long-term debt in statement of net position.	\$ (228,200,000)	
Debt repayment is expenditure in governmental funds, but reduces long-term liabilities in the statement of net position.	87,160,000	
Bond premiums and bond discounts require the use of current financial resources but are amortized over the life of the bond in the statement of activities.	(10,873,064)	
Total long-term debt		(151,913,064)

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenues over expenditures of the internal service funds is reported with the governmental activities. 5,704,983

Revenues in the statement of activities that do not provide current financial resources are reported as deferred revenues in the funds. The change in these revenues are as follows:

Property taxes	\$ (589,259)	
Fines and forfeitures	122,658	
Total changes in revenues		(466,601)

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

The change in these expenditures are as follows:

Interest owed but not yet paid	\$ (616,977)	
Arbitrage payable	(8,782,300)	
Lease & SBITA payable	3,535,443	
Pension	10,632,709	
Compensated absences	(1,917,289)	
Total changes in long-term liabilities		2,851,586
Change in net position of governmental activities		\$ 195,155,470

## Notes to the Financial Statements September 30, 2025

### I. Summary of Significant Accounting Policies

The accounting and reporting policies of the County reflected in the accompanying financial statements conform to accounting principles generally accepted in the United States of America ("GAAP") applicable to state and local governments. Accounting principles generally accepted in the United States of America for local governments are those promulgated by the Governmental Accounting Standards Board ("GASB") in *Governmental Accounting and Financial Reporting Standards*. The financial report has been prepared in accordance with GASB. The most significant accounting and reporting policies of the County are described in the notes to the financial statements as required by GASB Statement Number 34.

#### a. Reporting Entity

##### Primary Government

Collin County (the County) is a public corporation and political subdivision of the State of Texas. The Commissioners Court, comprised of the elected County Judge and four elected Commissioners, is the general governing body of the County in accordance with Article 5, Paragraph 18 of the Texas Constitution. The County provides the following services as authorized by the statutes of the State of Texas: justice administration (courts, juries, constables, district attorney, clerks, investigators, sheriff, jail, fire marshal, and medical examiner), tax collection, road and bridge maintenance, juvenile services and indigent health care assistance.

The accompanying basic financial statements present the County and its component units, entities for which the County is considered to be financially accountable. Blended component units, while legally separate entities, are in substance a part of the County's operations and are appropriately presented as funds of the primary government. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the County.

##### Blended Component Units

For reporting purposes, the Collin County Housing Finance Corporation (HFC), the Collin County Health Care Foundation (HCF), and the Collin County Toll Road Authority (CCTRA) are blended component units. The Commissioners Court is the governing board of the HFC, HCF and CCTRA. The HFC issues single and multiple-family revenue bonds that are disclosed as conduit debt in Footnote III (n) and provides grants to qualified entities that enhance housing affordability for citizens of the County with fees that were revenues for the HFC. The County and/or the citizens of the County benefit from revenues because the board can use the revenues to improve public housing within the County. There are no other financial operations or balances for this entity. Required financial reporting to show compliance is provided by the administrator, Bank of New York Mellon, acting as trustee for the various issues and overseeing legal compliance reporting. The HCF was organized under the Texas Nonprofit Corporation Act to assist the County by providing indigent health care. The County benefits from the HCF because it provides the legally required function of providing indigent health care. Without the organization, funds would have to be provided by tax dollars to serve this function of government. Financial activity is reported as a major special revenue fund within the governmental fund financial statements. The CCTRA was created to finance the Outer Loop project within the County with anticipated future toll revenues upon completion of construction. During fiscal year 2025, the County re-evaluated the reporting classification of the CCTRA and determined that it no longer meets the criteria for reporting as a blended component unit or enterprise fund. Accordingly, the CCTRA's assets, liabilities, and activities are now reported within governmental activities and the appropriate governmental funds. This change represents a reclassification of reporting and did not result in a restatement of prior year financial statements. These blended component units do not have separate financial statements.

##### Discretely presented component unit

The Child Protective Services Board is the County's only discretely presented component unit. The Child Protective Services Board provides additional assistance to foster children in the care of the State. The Board is appointed by the Commissioners Court but functions independent of County influence other than a limited amount of county budgeted

funding which is supplemented with grant funds. The Board proposed a budget for funding and the Commissioners Court authorized the budget as part of the County's annual adopted budget. This discretely presented component unit does not have a separate financial statement.

**b. Government-wide and Fund Financial Statements**

The government-wide financial statements include the statement of net position and the statement of activities. Government-wide statements report, except for County fiduciary activity, consolidated information on all of the activities of the County and its component units. The effect of inter-fund transfers has been removed from these statements but continues to be reflected on the fund statements. Inter-fund services provided and used are not eliminated in the process of consolidation. Governmental activities' primary support is derived from taxes, fees, and federal and state funding.

The statement of activities exhibits the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported as general revenues.

Separate fund financial statements are provided for governmental funds, enterprise (proprietary) funds, and fiduciary funds even though the fiduciary funds are excluded from the government-wide financial statements. The General Fund, General Road and Bridge Special Revenue Fund, Local Provider Participation Special Revenue Fund, Grants Special Revenue Fund, Debt Service Fund, 2018 Permanent Improvement Fund, and 2023 Permanent Improvement Fund meet the criteria or have been selected by management as *major governmental funds*. The Health Care Foundation Special Revenue Fund is being reported as a major fund even though it did not meet the requirement criteria because indigent healthcare is a major function of the County that is of great interest to the public. Each major fund is reported in separate columns in the fund financial statements. Nonmajor funds include other Special Revenue and Capital Project funds. The combined amounts for these funds are reflected in a single column in the fund financial statements. Detailed statements for nonmajor funds are presented within Combining and Individual Fund Statements and Schedules.

**c. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide, enterprise, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Major revenue types, which have been accrued, are District Clerk and County Clerk fees, Justice of the Peace fees, investment earnings, intergovernmental revenue, and charges for services. Grants are recognized as revenue when all applicable eligibility requirements are met.

Governmental fund level financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

Measurable and available revenues include revenues expected to be received within 60 days after the year ends. Receivables which are measurable but not collectible within 60 days after the end of the fiscal period are reported as unavailable revenue. Property taxes levied prior to September 30, 2025, which were levied October 1, 2024, have been assessed to finance the budget of the fiscal year beginning October 1, 2024. In accordance with the modified accrual basis of accounting, the balances outstanding at November 30, 2025, 60 days after year-end, are reflected as unavailable revenue and taxes receivable in the fund financial statements. Property taxes and interest earned as of September 30 and received within 60 days of year-end are accrued as income in the current period. Expenditures generally are recorded when a liability is incurred; however, debt service expenditures and claims and judgments are recorded only when payment is due.

The County reports the following major governmental funds:

**The General Fund** is the general operating fund of the County. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include property taxes, fees, intergovernmental revenues, fines and investment income. Primary expenditures are for general administration, public safety, judicial, state prosecution and capital outlay.

**The General Road and Bridge Special Revenue Fund** is used to account for the activities affecting County-owned roads, including right-of-way acquisitions, construction, operations and maintenance. Expenditures for shared cost road projects with the State of Texas are also included. This constitutional fund is partially financed by court fines and fees associated with vehicle registration.

**The Health Care Foundation Special Revenue Fund** is used to account for receipts restricted for indigent health care and related expenditures as administered by the Collin County Health Care Foundation. The Health Care Foundation was created with the sale of the county hospital in 1983 with the intent of providing healthcare to people that qualify for indigent medical care with investment earnings or until the fund is depleted. The Health Care Foundation owns buildings in which space is leased to the County and to other organizations as an additional source of revenue. The fund also receives revenues from federal and state government sources.

**The Local Provider Participation Special Revenue Fund** is used to collect mandatory payments from local hospitals to fund the nonfederal share of Medicaid supplemental program payments authorized under the state Medicaid plan. The LPPF authorizes the county to administer a health care provider participation program to provide additional compensation to local hospitals located within the county.

**Grants Special Revenue Fund** is used to account for receipt of grant revenues and expenditures from Federal and State entities or other sources.

**The Debt Service Fund** is used to account for property tax revenues restricted to be used to meet Collin County's debt obligations.

**2018 Permanent Improvement Capital Projects Fund** is used to account for bond projects authorized by voters on November 6, 2018. Total authorized for open space, roads and highways is \$750,000,000.

**2023 Permanent Improvement Capital Projects Fund** is used to account for bond projects authorized by voters on November 7, 2023. Total authorized for permanent improvement, facilities, open space, roads and highways is \$683,374,864.

The County also reports the following fund types:

**Special Revenue Funds** are used to account for specific revenue sources (other than debt proceeds) that are restricted from an outside source to be used for specified purposes.

**Capital Project Funds** are used to account for the different types of bonds issued by the county for the acquisition or construction of major capital projects such as design, construction or major improvements to roads, facilities, or parks. A county may not issue bonds payable in whole or in part from ad valorem taxes unless the bonds are authorized by a majority of the registered voters of the county voting on the issue.

Unlimited tax bonds are used to finance road construction. Unlimited tax bonds, per state statute, are secured by the county's pledge of an ad valorem tax, without limit, upon all taxable property within the county. The bonds issued would include payment for the cost of issuance associated with the sale of these bonds.

**Internal Service Funds** are used to account for financing activities internally for the County or a combination of other governments including the County on a cost-reimbursement basis. This includes activities for employee health care, workers' compensation insurance, liability insurance and optional payroll deductions as well as an animal shelter that services the County and cities within the County.

**Enterprise Funds** are used to account for business-type activities. The County has one enterprise fund, the Animal Safety Fund.

The Collin County Toll Road Authority (CCTRA) was previously reported as an enterprise fund to account for activities related to financing the Outer Loop project within the County. During fiscal year 2025, the County re-evaluated this classification and determined that the CCTRA does not meet the criteria for enterprise fund reporting. Accordingly, its assets, liabilities, and activities have been reclassified and are now reported within governmental activities and appropriate governmental funds.

The Animal Safety Fund is used to account for activities related to animal shelter and control activities in unincorporated areas of the County as well as within member cities. The County and member cities are required to fund the Animal Safety Fund on a pro-rata basis based on the 2020 census population.

Enterprise Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from delivering goods or services in connection with an Enterprise Fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**Fiduciary Funds** are used to account for assets that are held in a trustee or agent capacity and are therefore not available to support County operations. The County has two types of fiduciary funds:

1. **Investment Trust Funds** are used to report activities from individual investment accounts that are held in trust by the County on behalf of other parties until disbursement is authorized by either the County or District courts. If required investment earnings are allocated to the individual registry accounts in accordance with applicable laws and court directives.
2. **Custodial Funds** are used to account for assets held by the County in a custodial capacity for individuals, private organizations, and other governments. Examples of custodial funds are: The Tax Office collecting funds on behalf of local governments and the State or the Sheriff's Office collecting funds on behalf of inmates in order to make commissary purchases.

#### **d. Assets, Liabilities, and Fund Balance or Fund Net Position**

##### **1) Cash and Investments**

Financial statements reporting cash include cash on hand and demand deposits. In accordance with State of Texas statutes and the County's Investment Policy, idle funds are invested in investment pools with other local governments, in obligations of the U. S. Government or its Custodial, municipal bonds, certificates of deposit, and other interest bearing accounts with the main objective being the protection of principal.

The County and its component units report investments at fair value in accordance with provisions of GASB Statement Number 31. All investment income is recognized as revenue in the appropriate fund's statement of activity and/or statement of revenues, expenditures and changes in fund balance.

##### **2) Receivables and Payables**

###### **Accounts Receivable**

Property taxes are recognized as revenues in the period for which the taxes are levied, regardless of the lien date. Property taxes for the County are levied based on the taxable value on the lien date of January 1st prior to September 30th of the same year. They become due October 1st of that same year and delinquent after January 31st of the following year, with the exception of homeowners over 65 who have the option of making quarterly tax payments. Accordingly, receivables and revenues for prior-year levies delinquent at year end and outstanding 60 days after year end are reflected on the government-wide statements based on the full accrual method of accounting and under the modified accrual method in the fund statements.

Accounts receivable from other governments include amounts due from grantors for approved grants for specific programs and reimbursements for services performed by the County. Receivables and revenues are recorded for grants when all eligibility requirements have been met and reimbursable costs are incurred.

In the government-wide statements, legally enforceable claims are recorded as receivables and revenues when they are earned and not received. This includes fines and costs assessed by court action and billable services for certain contracts. Revenues received in advance of the costs being incurred are recorded as unearned revenue in the fund statements. Receivables are shown net of an allowance for uncollectible accounts.

Lending or borrowing between funds is reflected as "due to" or "due from" (current portion) or "advances to/from other funds" (non-current). Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in the applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources. Inter-fund activity reflected in "due to" or "due from" is eliminated on the government-wide statements with the exception of internal balances between the governmental activities and business-type activities.

**3) Inventories and Pre-paid Items**

Inventory is valued at average cost. Inventory in the General Fund and Special Revenue Funds consist of expendable supplies held for consumption and the costs are recorded as expenditures at the time the inventory items are used. Reported inventories are offset by non-spendable fund balance, which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

Certain payments to vendors reflect costs applicable to future accounting periods and are normally recorded as prepaid items in both government-wide and fund financial statements. The government-wide statements show prepaid expenses of \$29,959,224. This amount is comprised of payments to vendors for county managed projects on behalf of cities within the county.

**4) Restricted Fund Balance**

Upon receipt, contributions, grants, and other revenues restricted by donors for specific purposes are added to restricted assets of the County. Each fund with restricted fund balance has an administrator who is responsible for monitoring the revenues and expenses and for ensuring that the fund's resources are being used for the purposes stated. Funds within the Health Care Foundation Fund, a nonprofit corporation, are legally restricted. Resources set aside for specific purposes such as required within the terms of bond agreements, or self-insurance arrangements, are reported as restricted.

**5) Capital Assets – Primary Government**

Capital assets are tangible and intangible, which include land, buildings, construction in progress, improvements other than buildings, equipment, infrastructure, and right to use assets and are reported in the government-wide financial statements. Capital assets in the equipment category are defined as equipment with an acquisition value of \$5,000 or more. Infrastructure assets include County-owned roads, bridges and communication towers. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of receipt.

The costs of normal maintenance and repair that do not add to the value of the asset or materially extend the asset's life are expensed rather than capitalized.

Capital assets and infrastructure are depreciated using the straight-line method over the following estimated useful lives:

<b>Depreciable Life in Years</b>	
Asset Classes	Life in Years
Land/Land Improvements	0
Historical Treasures/Works of Art	0
Buildings	30
Improvements other than Buildings	10-20
Machinery and Equipment	
Computer Equipment	5
Heavy Machinery and Equipment	8-13
Law Enforcement Equipment	5-7
Other Equipment	7-10
Patrol Vehicles	1-2
Vehicles	5-7
Infrastructure	
Infrastructure - Asphalt	7
Infrastructure - Bridge	25-30
Infrastructure - Concrete	12
Infrastructure - Radio Tower	15
Right to Use Assets	
Buildings	Lease Term
Machinery and Equipment	Lease Term
Subscriptions	Lease Term

**6) Compensated Absences**

A liability for unused paid time off accruals and compensatory time for all full-time employees is calculated and reported in the government-wide financial statements. For financial reporting, the following criteria must be met to be considered as compensated absences: (a) leave or compensation is attributable to services already rendered and (b) leave or compensation is not contingent on a specific event (such as illness).

In accordance with GASB Statement No. 101, liabilities for compensated absences are recognized in the fund financial statements to the extent that the leave has been earned and is more likely than not to be used or otherwise paid. Accordingly, compensated absences are accrued in the government-wide financial statements and, where applicable, in the fund financial statements.

The County's permanent, full-time employees accrue 7.4 hours of paid time off (PTO) per pay period (biweekly) from date of employment to four years of service; 8.32 hours per pay period from 5 years to 9 years of service; 9.24 hours per pay period from 10 to 19 years of service; and 10.16 hours per pay period for 20 plus years of continuous employment. The maximum accrual is 200, 240, 320 and 400 hours of PTO for the respective accrual categories specified. Upon termination from the County, an employee is entitled to payment for the total accrued hours as long as they have completed at least one year of continuous service.

**7) Long-term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities under governmental activities. On new bond issues, bond premiums are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized in the year the bonds are issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs in the current year. The face amount of debt issued is reported as other financing sources. Premiums and discounts received on debt issuances are reported as other financing sources (uses). Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**8) Leases and Subscription-Based Information Technology Arrangements (SBITA)**

The County is a lessee for noncancellable leases of building, equipment, and subscriptions. The County recognizes lease liability and intangible right to use lease assets in the government-wide financial statements. The County recognizes lease liabilities with an initial individual value of \$50,000 for buildings, \$5,000 for equipment, and \$100,000 for subscriptions.

At the commencement of a lease or subscription, the County initially measures the liability at the present value of payments expected to be made during the lease term. Subsequently, the liability is reduced by the principal portion of the payments made. The right to use asset is initially measured as the initial amount of the liability, adjusted for payments made at or before the commencement date, plus certain initial direct costs. Subsequently, the asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases and subscriptions include how the County determines (1) the discount rate it uses to discount the expected payments to present value, (2) agreement term, and (3) agreed upon payments.

- The County uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the County generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The agreement term includes the non-cancellable period of the lease or subscription. Agreed upon payments included in the measurement of the liability are composed of fixed payments and purchase option price that the County is reasonably certain to exercise.

The County monitors changes in circumstances that would require a remeasurement of its lease or subscription and will remeasure the asset and liability if certain changes occur that are expected to significantly affect the amount of the liability.

Right to use assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

**9) Pension**

For purposes of measuring the net pension asset, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the County Employees Pension Plan (CEPP) and additions to/deductions from CEPP's fiduciary net position have been determined on the same basis as they are reported by CEPP. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**10) Unemployment and Workers' Compensation Benefits**

The County reimburses employees for unemployment compensation benefits. Reimbursements are made on the basis of regular billings received from the Texas Employment Commission. The County also processes workers' compensation payments through a third-party administrator as the claims become due. These obligations are budgeted and paid from current resources.

**11) Fund Balance**

In the fund financial statements, governmental funds report fund balances that are not available for appropriation or are legally restricted by outside parties for a specific purpose. As required by GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, these fund balance amounts are reported as non-spendable, restricted, committed, or unassigned. Collin County has no assigned fund balances.

The County's fund balance policy indicates that the County will typically use restricted or committed, in that order, prior to using unassigned resources. The County reserves the right to deviate from this general strategy.

a. **Non-spendable Fund Balance**

The non-spendable fund balance is in a form that is not available for use. For 2025, Collin County has one type of non-spendable fund balance, as shown below:

Fund Balances:	
Nonspendable:	
General Fund:	
Inventories	535,668
Total General Fund	\$ 535,668
General Road and Bridge Fund:	
Inventories	<u>4,811,175</u>
Total Nonspendable	<u>\$ 5,346,843</u>

b. **Restricted Fund Balance**

Limitations are imposed on a portion of fund balance by creditors, grantors, contributors, or laws and regulations of the state or federal governments. These funds are classified as restricted funds. Details of the restricted encumbrances can be found at (p) *Encumbrances* section of the notes to the financial statements. Restricted fund balances reported in the governmental fund statements are as follows:

Restricted:	
General Fund:	
Housing Finance Corporation	\$ 651,335
Records Archive	17,385,224
District Court Records Technology	614,341
Courthouse Security	<u>836,400</u>
Total General Fund	\$ 19,487,301
General Road and Bridge Fund:	
Public transportation	80,563,285
Health Care Foundation:	
Indigent health care	5,328,018
Local Provider Participation:	
Health & Welfare	69,378,863
Grants:	
Grant Programs	611,368
Debt Service Fund:	
Debt service activity	4,907,731
2018 Permanent Improvement:	
Road and bridge projects	481,786,842
2023 Permanent Improvement:	
Road and bridge projects	417,541,393
Other Governmental Funds:	
General administration	37,018,862
Judicial	16,690,869
Financial administration	441,811
Legal	4,929,438
Public facilities	6,044,547
Public safety	595,129
Public transportation	31,971,052
Culture and recreation	<u>61,355</u>
Total other governmental funds	97,753,062
Total Restricted	<u>\$ 1,177,357,863</u>

**c. Committed Fund Balance**

Committed fund balance is the portion of fund balance that has self-imposed limitations placed by the Commissioners Court. The Commissioners Court ordered these commitments with a Commissioners Court Order and in some cases adopted in the annual budget within separate funds for management which are rolled into the General Fund for reporting. If these funds are not ordered to be committed in future years they will be merged back into the General Fund since it is part of the budget adoption and not shown as committed. Committed fund balance is reported in the governmental fund statements as follows:

General Fund:

Committed	
Capital murder cases	2,000,000
Special elections	200,000
Utilities price spikes	500,000
Highway 75 project	6,000,000
Surety Bond District Clerk & County Clerk	600,000
Permanent Improvement	<u>32,737,140</u>
Total committed	<u>\$ 42,037,140</u>

**12) Change in Accounting Principle**

During fiscal year 2025, the County adopted the following new accounting guidance:

GASB Statement No. 101, *Compensated Absences* – The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this statement are effective for fiscal years beginning after December 15, 2023.

**II. Stewardship, Compliance and Accountability**

**a. Budgetary Information**

Annual budgets are adopted for all governmental funds with the exception of capital project funds and the following special revenue funds: Grants Fund, LEOSE Fund, Tax Assessor/Collector Motor Vehicle Tax Fund, District Attorney Service Fee Fund, Juvenile Case Manager Fund, and District Attorney Apportionment Fund. The budget for all capital project funds are adopted by project on a project-life term at the time debt is issued and amended as needed, and the budget is carried over from year to year until the funding is exhausted. All grant fund budgets are adopted at the grantor level and adoption is ministerial by Commissioners Court. All governmental fund annual appropriations lapse at year end.

On or before the last day of the March all departments of the County submit requests for appropriations to the Budget Officer. The initial budget request and the Budget Officer’s recommendations are provided to the Commissioners Court beginning in early August. Commissioners Court holds budget hearings to allow departments to justify requests not included in the Budget Officer’s proposed budget. They hold public hearings and publish notices starting in August on the timetable required by state statute. By September 1st or as soon as possible thereafter, the budget and the tax rate are adopted with tax notices mailed on or after October 1st.

The appropriated budget is adopted annually by fund, department, and activity at the legal level of budgetary control. The categories of salary and benefits, training and travel, maintenance and operating, and capital outlay are the legal levels used. Effective September 1, 2005, the Commissioners Court amended this policy to allow the Budget Officer to amend the budget as needed for appropriation line items with a “For Your Information” notification to the Court for all amendments over \$5,000.

Encumbrance accounting is utilized by the County. Encumbered amounts for specific purposes for which amounts have not been previously restricted or committed are included within unassigned fund balance. Encumbrances at year end do not constitute expenditures or liabilities because expenditures are not recognized until the goods or services have been received. The encumbrances at year-end are carried forward to the next year and the budget is increased to accommodate the additional expenditures.

### III. Detailed Notes on All Funds

#### a. *Deposits and Investments*

Chapter 2256 of the Texas Government Code (the Public Funds Investment Act) authorizes the County to invest its funds under a written Investment Policy (the "Investment Policy") that primarily emphasizes safety of principal and liquidity. It also addresses investment diversification, yield, and maturity along with quality and capability of investment personnel. The investment policy defines what constitutes the legal list of investments allowed under the policy, which excluded certain investment instruments allowed under Chapter 2256 of the Local Government Code.

The County's deposits and investments are invested pursuant to the Investment Policy, which is approved annually by Commissioners Court. The Investment Policy includes a list of authorized investment instruments and a maximum allowable stated maturity of any individual investment by group of funds. In addition, it includes an "Investment Strategy Statement" that specifically addresses each fund group's investment options and describes the priorities of preservation and safety of principal, liquidity, marketability, diversification, and yield.

The County Investment Officers, the County Auditor, and the Budget & Finance Director, jointly submit an investment report as specified by Chapter 2256 of the Texas Government Code each quarter to Commissioners Court. The report details the investment position of the County and the compliance of the investment portfolio as it relates to both the adopted Investment Policy and Texas State Statute.

The County's demand deposits, including certificates of deposit, are fully covered by collateral held by the County's agents, Federal Reserve Bank of New York, or the Federal Home Loan Bank of Dallas, in the County's name. The investments are comprised of various governmental agencies issues with a rating of A or better; and Federal Deposit Insurance Corporation (FDIC) insurance. The County's collateral agreements require the market value of securities held by its agents to exceed the total amount of cash and investments held by American National Bank (depository bank) and other banks holding investments of the County at all times. All other deposits are held in trust and are limited to individual accounts fully insured by FDIC.

The County's Investment Policy and depository contract are in accordance with the laws of the State of Texas. The policy and depository contract identify authorized investments and investment terms, collateral requirements, and safekeeping requirements for collateral. All the County's investments are insured, registered or the County's agent holds the securities in the County's name.

The Investment Officers are authorized to invest in the following investment instruments provided that they meet the guidelines of the investment policy:

- 1) Obligations, including letters of credit of the United States or its agencies and instrumentalities;
- 2) Direct obligations of this state or its agencies and instrumentalities;
- 3) Collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States;
- 4) Other obligations, the principal and interest of which are unconditionally guaranteed or insured by or backed by the full faith and credit of this state or the United States or their respective agencies and instrumentalities,

- including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States;
- 5) Obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent;
  - 6) Certificates of deposit issued by a state or national bank, a savings and loan association domiciled in this state, or a state or federal credit union domiciled in this state and is:
    1. Guaranteed or insured by the Federal Deposit Insurance Corporation or its successor or the National Credit Union Share Insurance Fund or its successor;
    2. Secured by obligations that are described by The Texas Government Code, Section 2256.009(a), including mortgage-backed securities directly issued by a federal agency or instrumentality that have a market value of not less than the principal amount of the certificates, but excluding those mortgage-backed securities of the nature described by The Texas Government Code, Section 2256.009(b); or
    3. Secured in any other manner and amount provided by law for deposits of the investing entity; and
    4. Solicited by bid or offer orally, in writing, electronically or any combination of methods outlined under The Texas Government Code, Section 2256.005(c)(1-4);
  - 7) Commercial Paper is an authorized investment under GC 2256.013 if the commercial paper:
    1. has a stated maturity of 365 days or fewer from the date of its issuance; and
    2. is rated not less than A 1 or P 1 or an equivalent rating by at least:
      - i. two nationally recognized credit rating agencies; or
      - ii. one nationally recognized credit rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States or any state.
  - 8) Money market mutual funds registered with and regulated by the Securities and Exchange Commission and fully conforming with The Texas Government Code, Sections 2256.014 and 2256.016(b) and (c) relating to the eligibility of investment pools to receive and invest funds of investing entities; and
  - 9) Investment pools, as discussed in the Public Funds Investment Act, The Texas Government Code, Section 2256.016-2256.019, are eligible if the Commissioners Court, by order, authorizes investment in the particular pool. An investment pool shall invest the funds it receives from entities in authorized investments permitted by GC 2256.016. An investment pool may invest its funds in money market mutual funds to the extent permitted by and consistent with The Texas Government Code, Section 2256.016 and the investment policies and objectives adopted by the investment pool. The County, by contract, may delegate to an investment pool the authority to hold legal title as custodian of investments purchased with its local funds.
  - 10) Bonds issued, assumed, or guaranteed by the State of Israel.

The County expressly allows money market mutual funds and eligible investment pools authorized by the Commissioners Court to invest to the full extent permissible within the Public Funds Investment Act.

The County participates in six Local Government Investment Pools: TexPool, TexSTAR, Logic, Texas Class, Texas FIT and Texas Range. The State Comptroller oversees TexPool with a third party managing the daily operations of the pool under contract. Although there is no regulatory oversight over TexSTAR, a five-member Board, consisting of three directors representing participants, one from a management service providing investment services and one from a company providing participant service and marketing to the Board, maintains oversight responsibility. Logic, Texas Class, Texas FIT and Texas Range are overseen by a Governing Board consisting of individuals elected from participating government entities in the pool.

The County invests in all six pools to provide its primary liquidity needs. All are local government investment pools established in conformity with the Inter-local Cooperation Act, Chapter 791 of the Public Funds Investment Act, Chapter 2256 of the Code. These pools are a conglomeration of local governments investing in investments approved by the Public Funds Investment Act. Such funds allow shareholders the ability to deposit or withdraw

funds on a daily basis. Interest rates are adjusted daily. They are all rated AAAM or AAAf/S1 and must maintain a weighted average maturity not to exceed 90 days. The County considers the holdings in these funds to have a one day weighted average maturity due to the fact that the share position can usually be redeemed each day at the discretion of the shareholder, short of a significant change in value.

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The County has the following fair value measurements: \$84,470,993 valued using a documented trade history in exact security (Level 1); \$9,934,646 valued using a documented trade history in exact security (Level 2); \$26,738,825 valued using an option-adjusted discounted cash-flow model (Level 2); \$66,775,299 valued using a present value of expected future cash flow model (Level 2).

The portfolio balances of all investments including cash equivalents for all funds at September 30, 2025, are as follows:

Type of Investment	Carrying Value	WAM (Days)
Local government investment pools	\$984,376,597	49
Federal agency bonds	263,819,639	1,206
Certificates of deposits	25,535,666	191
Municipal bonds	33,235,050	930
Money market/cash equivalents	219,753,959	1
Total investments	\$1,526,720,911	
Portfolio		132

The risk exposures for governmental individual major funds, non-major funds in the aggregate, internal service funds, and fiduciary fund types of the County are not significantly greater than the deposit and investment risk of the primary government. The Investment Policy segregates the portfolios into three strategic investment pool groups: operating, nonoperating and capital projects. The County’s Investment Policy seeks to control credit risk. Such risk shall be controlled by investing in compliance with the County’s investment policy, qualifying the brokers and financial institutions with which the County transacts, sufficient collateralization, portfolio diversification and limiting maturities.

**Credit Risk**

Most of the County’s investments are backed by the full faith and credit of the United States Government either directly or indirectly by using instruments of the United States Government or agencies as collateral. Investments that are not backed by instruments of the United States Government include municipal bonds and commercial paper in certain local government investment pools. According to the Collin County Investment Policy, municipal bonds must be rated not less than A or its equivalent; however, in practice all municipal bonds in the County’s portfolio are rated AA or better by Standard and Poor’s or the equivalent. The policy also allows for commercial paper that has a stated maturity of 270 days or fewer and is not rated less than A-1 or P-1 or the equivalent. The County has no commercial paper directly in the portfolio but does invest in two local government investment pools that invest in commercial paper with the same credit rating restrictions.

As of September 30, 2025, the local government pools (64% of the portfolio) were rated AAAM by Standard and Poor’s, or AAAf/S1 by Fitch. The federal agency bonds (17% of the portfolio) were rated AA+ by Standards and Poor’s. The Municipal Bonds (2% of the portfolio) were rated AA or better by Standard and Poor’s. The Certificates of Deposits (2% of the portfolio) were fully collateralized in Collin County’s name at the Federal Home Loan Bank. All funds in money market/cash equivalent accounts (15% of the portfolio) are FDIC insured or fully collateralized with securities held by the Federal Home Loan Bank or the Federal Reserve Bank of New York in the name of Collin County.

**Interest Rate Risk**

As a means of minimizing risk of loss due to interest rate fluctuations, the Investment Policy requires that investment

maturities not exceed five years for all investment types. The weighted average maturity for all securities was 132 days. All investments are normally held to maturity or until called.

**b. Deposits**

The September 30, 2025, carrying amount of deposits was as follows:

	<b>Bank Deposits</b>
Governmental activities	\$ 148,288,084
Business-type activities	345,990
Total	<u>\$ 148,634,074</u>

Most of the funds are collateralized with securities or held by the Federal Home Loan Bank or the Federal Reserve Bank of New York in the name of Collin County as of September 30, 2025. All other funds are insured by the FDIC.

**c. Property Taxes and Other Receivables**

Property taxes attach an enforceable lien on property as of January 1st. Taxes are levied prior to September 30th, become due on October 1st and are delinquent after January 31st except for homeowners over 65 who have the option of paying their taxes quarterly. The County bills and collects its own property taxes as well as those for the:

The County is the only taxing entity controlled by the Commissioners Court, and the County Tax Assessor/Collector, who is elected into office by the citizens of the County, acts only as an intermediary in the collection and distribution of property taxes to the other entities.

Collections of the property taxes and subsequent remittances to the proper entities are accounted for in the Tax Assessor/Collector’s Custodial Fund. Tax collections are recorded net of the entities’ related collection commission paid to the County in this Custodial Fund according to the levy year for which the taxes are collected. Tax collections deposited for the County are distributed to the County’s General Fund, Permanent Improvement Fund, and Debt Service Fund. This property tax distribution is prorated based upon the tax rate established for each fund by order of the Commissioners Court for the tax year for which the collections are made.

The County participates in several tax increment finance (TIF) districts. When a TIF district is created with the approval of all participating governmental entities, the property included in the district has its assessed valuation frozen at that time for the duration of the district. As projects are developed, increasing the assessed valuation of the property,

the agreed percentage of incremental increases is returned to the entity which initially financed the improvements. Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned such as grant revenue received but not yet expended.

**d. Deferred Inflows and Unearned Revenue**

At September 30, 2025, the various components of unavailable revenue and unearned revenue reported in the governmental funds were as follows:

Deferred inflows of resources:	
Taxes	
General Fund	\$ 2,775,580
Debt Service Fund	<u>1,082,082</u>
Total taxes	<u>3,857,662</u>

Unearned Revenues:	
Grant Funds	<u>77,049,299</u>
Total unearned revenue:	<u>\$ 77,049,299</u>

The County is authorized by the tax laws of the State of Texas to levy taxes up to \$0.80 per \$100 of assessed valuation for general governmental services and the payment of principal and interest on certain permanent improvement long-term debt. Taxes may be levied in unlimited amounts for the payment of principal and interest on road bond long-term debt issued under Article 3, Section 52 of the Texas Constitution.

**e. Receivables**

Receivables as of year-end for the County’s individual major funds as well as nonmajor, internal service, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

**f. Capital Assets**

Capital assets are recorded at cost. Donated capital assets, donated works of art and similar items and capital assets

Year ended September 30, 2025

received in service concession arrangements should be reported at acquisition value. Depreciation policies have been adopted to include useful lives and classification by function. The capitalization threshold for equipment is \$5,000. Infrastructure assets are valued by using actual historical cost where the amount can be determined. Once the historical cost is determined, the asset is then depreciated over its useful life. Many building and road projects have occurred during 2025.

Collin County Toll Road Authority Fund	Nonmajor Funds	11,089,949
Total		<u>\$ 172,499,873</u>

Transfers out of the General Fund, 2018 Permanent Improvement Fund, and Nonmajor Funds totaling \$169,784,857 were transferred to the Collin County Toll Road Authority (CCTRA) Fund in order to reclassify the fund as part of governmental funds. Transfers out of the General Fund and Nonmajor Funds to Grant Funds consists of \$448,746 were to support grant match requirements, additionally \$2,000,000 was transferred out of the General Fund to the Health Care Foundation to support health care operations. Transfers out from the Road and Bridge Fund consists of \$255,000 to support road projects within another fund. Transfers from specific Nonmajor funds to other Nonmajor funds consists of \$11,270 in order to close out remaining balances in Capital Project funds.

**p. Encumbrances**

Encumbrance balances are generally rolled over at year end into the next year and the budget is increased in the new year to cover the encumbrances. Encumbrances in funds other than the General Fund are included in restricted fund balances of those funds. The General Fund has encumbrances in the amount of \$31,319,670. The Commissioners Court has taken action to commit these rolled-over encumbrances to fund the outstanding purchase orders from the prior year. The more significant encumbrances are as follows:

Permanent improvement building projects	\$ 13,141,042
Outer Loop project	17,061,091
Information technology projects	9,018,400
Road projects	62,149,442
Building projects	97,382,680
Document preservations	1,450,533
Total	<u>\$ 200,203,187</u>

Encumbrances in an amount of \$9,794,462 were rolled over in the General Road and Bridge Fund. Of this amount, \$4,029,626 was for equipment for which the purchase was not completed in 2025, \$859,965 for road maintenance projects, \$2,220,026 was allocated for program contingency, \$1,877,015 for building improvements, \$282,732 of encumbrances were rolled over for consulting.

The Health Care Foundation Fund had \$1,103,855 restricted encumbrances roll over from 2025 to 2026. Of these amounts \$417,500 was for project access, \$284,220 was for software maintenance, \$77,842 was rolled over for grant programs to non-profit organizations, and \$24,900 for software.

Encumbrances in an amount of \$63,612,790 were rolled over in Grant Funds. Of this amount \$63,611,336 was related to buildings.

The 2018 Permanent Improvement Bond Fund had \$46,110,419 of encumbrances roll over from 2025 to 2026. Of this amount \$31,551,651 was rolled over for road construction and \$10,787,767 for consulting.

The 2023 Permanent Improvement Bond Fund had \$55,937,824 of encumbrances roll over from 2025 to 2026. Of this amount \$16,760,191 was rolled over for building construction, \$15,953,097 for architecture and \$12,905,247 for consulting.

An encumbered amount of \$14,130,555 was rolled over in all other governmental funds. These encumbrances were \$9,028,647 for infrastructure, \$3,500,000 for indexing service, \$244,706 for buildings and \$50,849 for grant awards.

**IV. Other Information**

**a. Risk Management**

The County elected to provide a limited risk self-funded group health insurance program to eligible employees and dependents; and is partially self-insured against the risks arising from tort claims, workers' compensation benefits due to employees who are injured while on duty, losses of funds by theft or other means in all fee offices of the County and any and all other claims asserted by employees and/or third parties against the County arising out of the normal conduct of County business. The County has also chosen to be a reimbursing employer under the unemployment compensation program administered by the Texas Employment Commission.

The Employee Insurance Fund was established to account for the County's group health and dental insurance. A third-party administrator, United Healthcare, administers the County plan. During the year ended September 30, 2025, the County paid \$1,700 per month, for medical and dental benefits per budgeted position, to the plan. Employees, at their option, authorized payroll deductions to pay premiums for dependents. In accordance with state law, the County was protected against catastrophic individual loss by stop-loss coverage. Individual stop-loss deductible is \$100 thousand per person.

The Employee Insurance Fund experienced an decrease of \$3.1 million in benefits paid in 2025 after experiencing an increase of \$6.2 million in 2024 compared to 2023. Total net position increased by \$4.6 million. Management continues

to monitor the claims and has made changes to coverage to help keep costs down. The County’s Workers’ Compensation Fund self-insurance program provides medical and indemnity payments as required by law for on-the-job related injuries up to a stop loss of \$500,000. The third-party administrator for the program monitors the filing of claims, verifies the legitimacy of those claims, and proemployees. The County is protected against catastrophic individual or aggregate loss by stop-loss coverage by a third-party insurance plan.

Losses as a result of theft or by other means, and damage or destruction of assets are accounted for in the Liability Claims Internal Service Fund. The County carries insurance through various commercial insurance companies to limit losses to reasonable deductible levels. In 2025 the County did not experience any identified material violations of financial-related legal or contractual provisions.

Premiums are paid into each individual insurance internal service fund by the other funds they service. Contracted insurance providers receive disbursements from each fund based on monthly enrollment and premium calculations or actual cost plus an administrative fee. All of each fund’s resources are available to pay the particular type of claims, claim reserves and administrative costs of that specific program. Liabilities of each fund are reported when it is probable that a loss or claim has occurred, and the amount of the loss or claim is known or can be reasonably estimated.

Liabilities include an amount for claims or judgments that have been incurred but not reported. The estimate of the claims and judgments liability also includes amounts to guard against catastrophic loss. No settlements in the past three years have exceeded insurance coverage. Changes in the medical, workers’ compensation, and claims liability amounts in 2025 and 2024 are as follows (in thousands):

	Prior Year Liability	Estimates	Payments	Current Year Liability
2025 Employee Medical	855	37,966	37,966	855
2024 Employee Medical	855	41,042	41,042	855
2025 Workers’ Compensation	638	425	425	638
2024 Workers’ Compensation	638	545	545	638
2025 Liability Insurance	446	2,071	2,071	446
2024 Liability Insurance	446	1,457	1,457	446

**b. Commitments and Contingencies**

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. A contingent liability was not established because potential reimbursements are considered immaterial.

The County is named as a defendant in various lawsuits related to alleged violations of constitutional and employment rights. In all of these cases, the County is denying the allegations and is vigorously defending against them. County officials estimate that the potential claims against the County will not materially nor adversely affect the financial position of the County.

**c. Longevity Pay**

Longevity pay for the County’s employees is calculated and paid annually. The formula for its calculation has been adopted as policy by the Commissioners Court; however, it is only available to employees hired before December 18, 2007. There is no liability as of September 30, 2025, because the full longevity payment has been recorded in the Government Fund Statements as a current expenditure since the liability was paid as part of the last payroll in 2025.

**d. Post-Retirement Health Benefits**

Plan Description

The County’s post-employment benefit plan is a single-employer defined benefit plan. The County offers health benefits at actuarial cost with no supplements. The applicable coverage amount applies to both retiree and the retiree’s spouse when they reach age 65 and is available only if the retiree is not covered under another insurance policy other than Medicare. Spouse coverage is only available if they were on the County’s plan prior to the employee’s retirement from

the County. County coverage is secondary to eligibility for Medicare coverage. No post-employment liability exists since retirees are paying the full cost of this benefit.

**e. Retirement Commitments**

Plan Description

The County Employee Pension Plan (CEPP) provides retirement, disability and death benefits for all of its full-time employees through an agent multiple-employer defined benefit pension plan in the Texas County and District Retirement System (TCDRS). The Board of Trustees is responsible for the administration of the statewide agent multi-employer public employee defined benefit pension retirement system consisting of nearly 870 public employee defined benefit pension plans. TCDRS in the aggregate issues an annual comprehensive financial report (ACFR) on a calendar year basis. The ACFR is available upon written request from the board of trustees at P. O. Box 2034, Austin, Texas 78768-2034 or can be viewed at [www.tcdrs.org](http://www.tcdrs.org).

The plan provisions are adopted by the governing body of the employer, within the options available in the state statutes governing the TCDRS (TCDRS Act). Members employed by Collin County can retire at age 60 and above with eight or more years of service, with 30 years of service, regardless of age, or when the sum of their age and years of service equal 75 or more. Members are vested after eight years of employment but must leave their accumulated contributions in the plan until retirement to receive any employer-financed benefit.

Benefits Provided

TCDRS provides retirement, disability and death benefits for all full-time employees. Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest at a fixed 7% rate per annum, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's contribution commitment. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Benefit terms provide for cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The Commissioners Court chooses to provide a cost-of-living adjustment every third year. The amount of the adjustment is also determined every third year by the Commissioners Court.

**Employees covered by benefit terms**

As of December 31, 2024, the plan had 4,532 members of which 1,938 are depositing members and 1,520 are inactive members entitled but not yet receiving benefits. As of December 31, 2024 there were 1,074 retired employees receiving benefits from the program averaging \$2,743 per month per retired employee.

**Contributions**

The County elected the annually determined contribution rate (variable rate) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the County is actuarially determined annually. The required actuarial rate for calendar years 2024 and 2025, was 7.58% and 7.49%, respectively. However, the County contributed an amount of 10.00% and 10.00%, respectively. The contribution rate payable by the employee members for the calendar years of 2025 and 2024 was 7.0% as adopted by the governing body of the County. The employee contribution rate and the County's contribution rate may be changed by the governing body of the County within the options available in the TCDRS Act. If a plan has had an adverse experience, the TCDRS Act has provisions that allow the employer to contribute a fixed supplemental contribution rate determined by the System's actuary above the regular rate for 25 years or to reduce benefits earned in the future.

**f. Net Pension Liability (Asset)**

The County's net pension liability was measured as of December 31, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

**Actuarial Assumptions**

The total pension liability in the December 31, 2024, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Real rate of return	5.00%
Inflation	2.50%
Investment rate of return	7.50%
Salary increases	4.70%

Updated mortality assumptions were adopted in the actuarial valuation of December 31, 2024. All other actuarial assumptions that determined the total pension liability as of December 31, 2024, were based on the results of an actuarial experience study for the period of January 1, 2017, through December 31, 2020. Mortality rates are as follows:

Depositing members	135% of Pub-2010 General Employees Amount-Weighted Mortality Table for males and 120% Pub-2010 General Employees Amount-Weighted Mortality Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.
Service retirees, beneficiaries and non-depositing members	135% of Pub-2010 General Retirees Amount-Weighted Mortality Table for males and 120% Pub-2010 General Retirees Amount-Weighted Mortality Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.
Disabled retirees	160% of Pub-2010 General Disabled Retirees Amount-Weighted Mortality Table for males and 125% Pub-2010 General Disabled Retirees Amount-Weighted Mortality Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.

All actuarial assumptions that determined the total pension liability as of December 31, 2024 were based on the results of a public sector actuarial experience study for the period January 1, 2017 – December 31, 2020, except where required to be different by GASB 68. The economic assumptions were reviewed at the March 2021 TCDRS Board of Trustees meeting and revised assumptions were adopted. These revisions included reductions in the investment return, wage growth, and maximum payroll growth assumptions. The assumptions are reviewed annually for continued compliance with the relevant actuarial standards of practice.

The long-term expected rate of return on pension plan investments is 7.60%. The pension plan’s policy in regard to the allocation of invested assets is established and may be amended by the TCDRS Board of Trustees.

The long-term expected rate of return on TCDRS is determined by adding inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions and information below are based on January 2025 information for a 10-year time horizon. The valuation assumption for long-term expected return is reassessed at a minimum of every four years and is set based on a long-term time horizon. The TCDRS Board of Trustees adopted the current assumption at their March 2021 meeting.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Benchmark	Target Allocation <sup>(1)</sup>	Geometric Real Rate of Return (Expected minus Inflation) <sup>(2)</sup>

<sup>(1)</sup> Target asset allocation adopted at the March 2025 TCDRS Board meeting.

<sup>(2)</sup> Geometric real rates of return equal the expected return for the asset class minus the assumed inflation rate of 2.35%, per Cliffwater's 2025 capital market assumptions.

<sup>(4)</sup> Includes vintage years 2007-present of Quarter Pooled Horizon IRRs.

<sup>(5)</sup> Includes vintage years 2006-present of Quarter Pooled Horizon IRRs.

**Discount Rate**

The Discount rate used to calculate the total pension asset was 7.60%. This rate reflects the long-term rate of return funding valuation assumption of 7.50% plus a 0.10% adjustment to be gross of the administration expenses. The plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active, inactive, and retired members. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return, and the municipal bond rate does not apply.

**Sensitivity of Net Pension Asset to Changes in the Discount Rate**

The following presents the net pension asset of the County, calculated using the discount rate of 7.60%, as well as what the County net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower (6.60%) or 1 percentage point higher (8.60%) than the current rate.

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan’s fiduciary net position is available in the separately issued TCDRS financial report.

**g. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

For the year ended September 30, 2025, the County recognized pension expense of \$5,682,692. At December 31, 2024, the County reported deferred outflows of resources and deferred inflows of resources related to the pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 6,176,285	\$ -
Changes of assumptions	-	-
Net difference between projected and actual experience	-	8,723,517
Contributions made subsequent to measurement date	12,114,926	-
Total	<u>\$ 18,291,211</u>	<u>\$ 8,723,517</u>

An amount of \$12,114,926 is reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction to the net pension asset for the year ending September 30, 2026 . Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	
2026	\$ (4,324,765)
2027	14,571,068
2028	(8,325,343)
2029	(4,468,192)
Total	<u>\$ (2,547,232)</u>

**h. Tax Abatements**

Collin County occasionally implements tax abatements which are negotiated by cities within the County to promote economic activity and attract new businesses to the County in order to increase the tax base. As of September 30, 2025, the County has tax abatement agreements with 3 businesses. Each agreement was negotiated under Section 312 of the State of Texas Tax Code, and agreements allow for a 10-100% abatement of the taxable value of property. There are no provisions to recapture the abated taxes. The County has not made any commitments as part of the agreements other than to reduce taxes. The County is not subject to any tax abatement agreements entered into by other governmental entities.

Business	Tax Reduction (thousands)	Contracted property Abatement Percentage
7900 Legacy Drive Owner LLC	\$ 18,280	24%
FedEx Office & Print Services Inc.	5,000	44%
Texas Instruments Inc.	1,691,841	53%
Total	<u>\$ 1,715,121</u>	

**i. Accounting Changes and Error Corrections**

During the year the County had changes within the financial reporting entity:

- 1) The Collin County Toll Road Authority (CCTRA) was established to accelerate construction of critical infrastructure, specifically the Collin County Outer Loop, by allowing local control over funding, project development, and tolling rather than relying solely on state funding. It was designed to secure rights-of-way, manage development, and keep revenue local. Although created to advance the Outer Loop as a toll road, the Commissioners Court later shifted the project to a freeway. Because management determined that the activity did not meet the criteria for enterprise fund reporting, as it would not recover costs through user fees and was not self-sustaining in nature, it has been reclassified to governmental funds and will no longer be reported as an enterprise fund. The reclassification did not have a material impact on total net position but affected the presentation between governmental and business-type activities.

**j. Future Financial Reporting Requirements**

The GASB has issued the following statements::

GASB Statement No. 103, *Financial Reporting Model Improvements* – The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government’s accountability. This Statement also addresses certain application issues. The requirements of this statement are effective for fiscal years beginning after June 15, 2025

GASB Statement No. 104, *Disclosure of Certain Capital Assets* – The objective of this Statement is to provide users of

government financial statements with essential information about certain types of capital assets. This Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures, including right to use assets related to leases, Subscription-Based Information Technology Arrangements, and public-private or public-public partnerships. In addition, this statement requires intangible assets other than those three types to be disclosed separately by major class. The requirements of this statement are effective for fiscal years beginning after June 15, 2025.

GASB Statement No. 105, *Subsequent Events* – The objective of this Statement is to provide improved guidance on evaluating, recognizing, and disclosing events that occur after the financial statement date but before the statements are available to be issued. It defines recognized and non-recognized subsequent events and requires disclosure of the evaluation date. The requirements of this statement are effective for fiscal years beginning after June 15, 2026.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SEPTEMBER 30, 2025

### STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### Budgetary Information

Annual budgets are adopted for all governmental funds with the exception of capital project funds and the following special revenue funds: Grants Fund, LEOSE Fund, Tax Assessor/Collector Motor Vehicle Tax Fund, District Attorney Service Fee Fund, Juvenile Case Manager Fund, and District Attorney Apportionment Fund. The budget for all capital project funds are adopted by project on a project-life term at the time debt is issued and amended as needed, and the budget is carried over from year to year until the funding is exhausted. All grant fund budgets are adopted at the grantor level and adoption is ministerial by Commissioners Court. All governmental fund annual appropriations lapse at year end.

On or before the last day of March all departments of the County submit requests for appropriations to the Budget Officer. The initial budget request and the Budget Officer's recommendations are provided to the Commissioners Court beginning in early August. Commissioners Court holds budget hearings to allow departments to justify requests not included in the Budget Officer's proposed budget. They hold public hearings and publish notices starting in August on the timetable required by state statute. By September 1<sup>st</sup> or as soon as possible thereafter, the budget and the tax rate are adopted with tax notices mailed on or after October 1<sup>st</sup>.

The appropriated budget is adopted annually by fund, department, and activity at the legal level of budgetary control. The categories of salary and benefits, training and travel, maintenance and operating, and capital outlay are the legal levels used. Effective September 1, 2005, the Commissioners Court amended this policy to allow the Budget Officer to amend the budget as needed for appropriation line items with a "For Your Information" notification to the Court for all amendments over \$5,000.

Encumbrance accounting is utilized by the County. Encumbered amounts for specific purposes for which amounts have not been previously restricted or committed are included within unassigned fund balance. Encumbrances at year end do not constitute expenditures or liabilities because expenditures are not recognized until the goods or services have been received. The encumbrances at year-end are carried forward to the next year and the budget is increased to accommodate the additional expenditures.

<sup>(1)</sup> Taxes are levied on assessed property values as of January 1 of prior calendar year (i.e., in 2025, taxes are levied on calendar year 2024).

<sup>(2)</sup> Adjustments to the original levy include exonerations, tax relief, and supplemental assessments.

<sup>(3)</sup> This table includes property taxes only and does not include penalty and interest. The percentage of adjusted levy may exceed 100% due to overpayments of taxes and to losses of exemptions (agricultural, homestead, disabled homestead and disabled veteran) not known when taxes were levied.

Sources: Assessed value used to estimate applicable percentages provided by the County Appraisal District. Debt outstanding data provided by the County, which includes: bonds, notes, certificates of participation, loans, and capital leases.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the county. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Collin County. This process recognizes that, when considering the government’s ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

\* The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county’s taxable assessed value that is within the government’s boundaries and dividing it by the county’s total taxable assessed value.
