Why the Honoree is receiving a GEM Award including dates:

During the 2026 implementation of Gravity for the County's Annual Comprehensive Financial Report (ACFR), Tyler Connelly demonstrated exceptional initiative and technical skill in developing the complex general ledger mapping needed to crosswalk the County's Munis GL into Gravity's automated reporting structure. His work required detailed analysis of funds, accounts, reporting categories, and financial statement relationships, along with careful troubleshooting of mapping exceptions to ensure accurate and reliable data. Tyler's persistence and attention to detail were critical to creating a repeatable automated process that will improve the efficiency and quality of ACFR preparation. This was a noteworthy one-time achievement and an exceptionally high-quality work product that went well beyond routine responsibilities.
