Why the Honoree is receiving a GEM Award including dates:
I would like to nominate Maki for a GEM award. Maki has an amazing attention to detail and through her constant checking on wearers profiles was able to identify twice this year situations where defendant's required ELM's prior to release were released by the jail without an ELM. Maki immediately both times reported it to me and jail staff in order to coordinate getting the defendant's back to the jail in order to conduct the ELM installs in a timely manner. As well, Maki also caught that CC@L cases were not being linked to magistrate cases and this was leading to installs/de-installs of ELM being missed, she brought this up to my attention and I was able to work with Andrew Garcia to ensure CC@L clerks remembered to link the cases. Since Maki found this issue and it has been resolved there have been a significant reduction in CC@L cases not being linked and leading to a reduction in ELM installs/de-installs being missed.
