

Polling Place Procedures for COVID-19

Social Distancing

The polling places are set up according to suggested social and physical distance guidelines where possible to allow for 6 feet between voters.

Markers are placed on the floors to assist with distance spacing.

Poll workers are encouraged to allow a limited number of voters inside the polling location during voting hours.

No Contact Voting

Disposable ballot marking devices are provided for every voter.

Cleaning and Sanitizing

All voting equipment is frequently sanitized.

Poll workers are encouraged to wash or sanitize their hands frequently.

Poll workers are provided with KN95 masks for use while in the polling location as well as disposable protective masks.

Face shields are provided for those workers who wish to wear one.

Plexiglas protection shields are provided for use at the voter check-in area.

All surfaces are cleaned frequently.

Voters are encouraged to use their own pen for signing the signature roster.
